Subject: Mesa Del/Payson water

Help! Please act promptly on Docket #'s: W-03514A-10-0116 *and* W-03514A-10-0117.

We have a water source less than 2 miles away in Payson! We are willing to pay our fair share to obtain and haul enough water to cover our *needs*.

I appreciate the work our Mesa Del Water Committee has done to implement the changes recommended by you and our community input. I'm grateful for the cooperation between Mesa Del and Payson Water/Brook Utilities in trying to meet our water *needs*.

Sincerely,

Herbert A. Fritts & Barbara L. Patterson-Fritts

Subject: Mesa Del Caballo water crisis

With the current water restrictions in Mesa Del Caballo all my plants will be dead due to the postponement of the ACC hearing until July. Many people have worked hard to resolve the water issues here and this delay is a hardship for those of us who have vegetable gardens and are relying on the produce to help defray increased costs due to the poor economy. I like to think of these gardens as victory gardens. There is no victory for any of the parties involved if this hearing is delayed until July.

I encourage you all to please reconsider and not delay. Last year Mesa Del only had $\frac{1}{2}$ " (that's correct $\frac{1}{2}$ ') of rain during the monsoons last year. Without Mother Nature to help us out we need these water issues resolved and only the ACC can help us now.
