DOCKET NO. E-01933-97-0772

DOCKET NO. RE-00000C-94-0165

Dear Commissioner Irvin:

As I know you are aware, the proposed order for both the Electric Restructuring rules and the APS settlement have been issued by the Hearing Division.

In order to accommodate Commissioner Mundell's request for sufficient time to fully study the matters, the items are scheduled to be considered September 21-23, 1999. This provides the parties with nearly one month to evaluate and study the proposals.

This will allow parties and the general public an opportunity to fully consider the items and offer any changes that are deemed warranted. I recognize that the Open Meeting process may cause additional amendment consideration and certainly do not want to thwart that process. However, I do concur with Commissioner Mundell's concerns that were expressed in the Commission's last Open Meeting, and to the extent possible, amendments should be offered prior to the scheduled Open Meeting.

Given the complexities of this matter which is evidenced in the time spent crafting restructuring rules these past four years, I am requesting by this letter that all parties, Commissioners included, make an effort to have all suggested amendments to the Commissioners no later than noon, Friday, September 17, 1999.

Further, I would ask that all concerns relative to these pending matters be raised before the items are voted.

I appreciate the concurrence of all concerned in this matter.

Sincerely,

Carl J. Kunasek  
Chairman
