MAYES PROPOSED AMENDMENT 1

Page 7, line 27, INSERT: "The Commission believes it is in the public interest for TEP to develop, and submit for Commission consideration, a residential bill comparison pilot program that will allow its residential customers to compare their monthly energy usage with that of other similarly situated customers. We are aware that in other states, such on-bill comparison programs, in which a sub-set of customers is mailed a report on their energy usage that provides a qualitative comparison of their energy usage with that of other customers, along with suggestions for how each customer can reduce his or her energy usage and total bill, have proven effective in significantly reducing both overall utility and individual consumer energy demands. These bill comparison programs are being offered at utilities such as Sacramento Municipal Utility District ("SMUD"), Pacific Gas and Electric, AEP Ohio and Puget Sound Energy. Additionally, we take notice that Arizona Public Service Company recently filed such a program for Commission consideration as part of its 2011 Energy Efficiency Implementation Plan. While TEP will not be required to file an Energy Efficiency Implementation Plan until the Commission's Energy Efficiency rules are finalized, we are cognizant that TEP files DSM programs individually, and believe that TEP and its customers could benefit from the formation of an appropriate on-bill comparison program."

Page 9, line 4, INSERT New Ordering Paragraph: "IT IS FURTHER ORDERED that Tucson Electric Power Company shall develop a bill comparison pilot program that will allow its customers to compare their energy usage with that of other similarly situated customers, and shall submit the pilot program proposal, no later than September 1, 2010, for Staff review and Commission consideration."

Make all conforming changes.
