Subject: SSVEC Hearing Schedule: docket E-01575A-08-0328

Dear Chairman Mayes , Commissioner Pierce, Commissioner Kennedy, and Commissioner Stump,

I would like to respectfully request that the SSVEC Hearing scheduled for Phoenix be moved to Tucson.

It is a hardship on many of us to make the trip to Phoenix.

It sounds like SSVEC is going to Charter another bus to bring people in support of the line with them, as they chartered 2 buses to the last hearing in Tucson.

I would also like to file a complaint with you about this wasteful spending of our cooperatior dollars. I don't believe the utility should be allowed to spend money in this way.

Moving the Hearing to Tucson would be a great help to the people affected by this decision and allow them to participate in this decision.

thank you very much for you consideration in this matter.

Sincerely,
gail getzwiller

Subject: E-01575A-08-0328: Sonoita sustainable homes tour on June 20 Sunday

Dear Chairman Mayes, Commissioners, Representative Gabrielle Giffords, and Supervisor Maynard;

R.E.: E-01575A-08-0328 - SSVEC RATE CASE

I thought you'd find this interesting. We have a 20 kilowatt solar system that will be on the tour. Just more proof that we are energy conscious and we want to natural renewable energy solutions! We do want to become a locally generating rural energy community! and Stop importing expensive dirty coal fired energy!

We are approaching 1,000 kilowatts of locally installed PV and wind in our area. That satisfies 1/2 of what the

ARIZONA CORPORATION COMMISSION
UTILITY COMPLAINT FORM

SSVEC Feasibility study said we would need in 2029, also more proof we do not need a new 69kV Power Line to our area.

Here are the details about the PE4RC Sonoita "Greening Your Home" Tour:

Time: 11am-2pm

Date: Sunday, June 20

Start: County Courthouse Building in Sonoita

What: The tour is a coordinated set of open houses at the homes of area residents who have implemented energy efficiency measures, installed renewable energy systems or used green building techniques. We hope you will take part and be inspired to upgrade your home after you learn what others have done to save energy and money.

Info: Please visit the PE4RC site:
<http://sites.google.com/site/pe4rc/announcements>

Please contact Wayne for more information. I hope you will consider a tour of our area to obtain more facts about the true need for the proposed powerline.

Wayne
