To Whom It May Concern:

Attached is a copy of a letter that I wrote to you 18 months ago. I never received an acknowledgement of the letter nor did I receive a response. I have been in contact with the Arizona Corporation Commission and they don't have record of this letter.

I am sending this to you again. Please make sure the appropriate person/s receives it.

In Appreciation.....

Beverly Jackson

Re: North-Central Power-Line Routes

It is with great concern and opposition I write this letter to you. I was sick to my stomach while reading the newspaper article regarding the new 230kV power line placement in the North Valley I-17 Frontage road area. This concerns me because I just recently purchased a home in that area that won't be built until July. It was disclosed that there would be some utility activity going on but nothing regarding the 230-kV lines/poles that are mentioned in the Republic article. Nor did I receive any information up until now regarding the utility line placement.

This Kaufman & Broad development is new. There are not many homes that are occupied at this present time but there are many homes that have begun the construction process. The development I'm referring to is Hillcrest at Westland at 31st Avenue and Pinnacle Vista. Therefore, I cannot gather together a GROUP of residents to help with the opposition process.

It appears that no decisions have been formally made to locate the 115 ft. tall, 230-kilovolt line/poles on the West side of the I-17 or the East side of the I-17. I am writing this letter in hopes that the location of the poles be placed on the EAST side of the I-17. This community is new, therefore, I feel like I am at a disadvantage in fighting this placement of poles. Please take in to consideration that there will be a new community with many new homes on the West side of I-17 close to the frontage road. On the East side there is only one business going up at the moment and the remaining is designated industrial. Wouldn't it be in the best interest/health of the people to have the lines on the East side? Where there are fewer homes!

There is only ONE access in to this community and that is the I-17 frontage road that means all of the people in this new community would have to drive by and under your lines/poles.

My home was very expensive. I have a lot of money to lose if I back out now. I am so sick over this latest information regarding the 230-kV lines/poles that I don't know what to do. I am not an electricity expert so I can't argue about our safety and the safety of others. I'm not sure which direction to go at this moment. There are many custom homes going in within blocks of where these poles would be placed. I am sure that once these poles have been placed they will surely decrease the value of our property, so you see we have much to loose.

By looking at the map that was in last weeks newspaper, it seems odd that APS would want to cross over the I-17 from the East side to the West side and then have to cross back over the I-17 from the West side to the East side when they get to the Carefree Highway. This is silly and I'm sure very expensive.

Looks to me like existing power poles and all other tall cement power supply lines are already in place on the East side of I-17 from Bethany Home Rd. north to Happy Valley.

I know that APS' first choice for the power pole placement is the West side frontage road from Happy Valley Rd to the Carefree Highway. This is not in the best interest of the homeowners in that area. I am asking you to please reconsider this placement to their (APS) alternative, which is on the EAST side frontage road of the I-17.

In the mean time, I will go door to door in the newly developed area and stir up as many interested parties for the opposition and pass on your address. As I said, Westland at Hillcrest is new and I don't believe any one is occupying their new homes as of yet. This is perfect for APS. No one is in there so no one hollers. This will make it more difficult for me to fight this placement I'm sure.

Of course no lines will be placed along Carefree Highway, they had the most vocal opposition because there are currently many residents of Carefree. Let's not pick on the area that has no one in it to shout.

Please, please consider my letter and pass it on to whomever who would be willing to back me up.

Sincerely Yours,

~~Beverly Jackson
