Re: APS North Valley 230kV Facility Siting Project – CEC Application

Dear Mr. Li:

The APS North Valley Project involves the proposed construction of a 230kV transmission line and two proposed substations in the north Phoenix metropolitan area. On Monday, September 23, APS filed an application for a Certificate of Environmental Compatibility (CEC) with the Arizona Corporation Commission (ACC) for the North Valley Project.

Ms. Laurie Woodall, chairperson of the Arizona Power Plant and Transmission Line Siting Committee of the ACC, has requested that APS forward a copy of the CEC application to potentially interested parties and jurisdictions within the study area. The CEC application is being forwarded for your review and comment on APS' behalf.

Enclosed for your review is a copy of the CEC application. If you have any questions regarding this document, please contact me at (602) 956-4370, or contact the APS project manager, Mike DeWitt, at (602) 493-4409.

Thank you.

Sincerely,

Paul Trenter  
Project Manager

Case No. 120  
Phoenix, Arizona

Dear Mr. Kennedy:

I am forwarding for your review and comment a copy of the Application for a Certificate of Environmental Compatibility for the North Valley 230kV Facility Siting Project, which involves the proposed construction of 230kV electrical transmission lines and two substations in Phoenix, Arizona. We initially contacted the Department regarding this project in late 1998 and April 2001. We also sent a letter to the Department in July 2002. The most recent response letter from the Department, dated April 26, 2001, is included in this document in Exhibit C.

If you have any questions, please do not hesitate to call me at 602-956-4370.

Sincerely,

RE: Proposed North Valley 230kV Transmission Line, Maricopa County, Arizona

Dear Mr. Bilbarrow:

I am sending for your review and comment a copy of APS's application for a Certificate of Environmental Compatibility (CEC) for their proposed North Valley 230kV Facility Siting Project to be located in Maricopa County, Arizona. This project is part of a long-range planning effort to develop a 230kV system in the north valley and will connect the existing Westwing and Pinnacle Peak substations to the proposed Avery and Misty Willow substations. Environmental Planning Group (EPG) has been hired by APS to conduct environmental studies in support of this project.

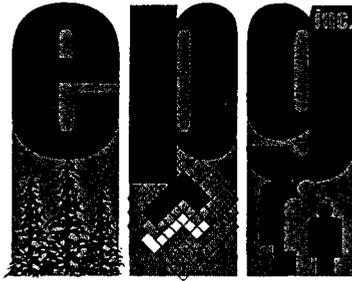

Within the next three weeks Mrs. Kris Dobschuetz, manager of our Phoenix cultural resource group, will be submitting to your office a report documenting the results of a cultural resource study EPG undertook in support of the project. This report includes a class I records review, class III intensive pedestrian examination of the project's area of potential effect (APE), eligibility recommendations for those sites identified within the APE, and an assessment of the project's potential to affect cultural resources.

If you have any questions concerning the project or the CEC application, please do not hesitate to contact me by telephone (602-956-4370) or by e-mail ([trenter@epgaz.com](mailto:trenter@epgaz.com)).

Sincerely,

The APS North Valley Project involves the proposed construction of a 230kV transmission line and two proposed substations in the north Phoenix metropolitan area. On Monday, September 23, APS filed an application for a Certificate of Environmental Compatibility (CEC) with the Arizona Corporation Commission (ACC) for the North Valley Project.

Ms. Laurie Woodall, chairperson of the Arizona Power Plant and Transmission Line Siting Committee of the ACC, has requested that APS forward a copy of the CEC application to potentially interested parties and jurisdictions within the study area. The CEC application is being forwarded for your review and comment on APS' behalf.

Enclosed for your review is a copy of the CEC application. If you have any questions regarding this document, please contact me at (602) 956-4370, or contact the APS project manager, Mike DeWitt, at (602) 493-4409.

Thank you.

Sincerely,

Paul Trenter  
Project Manager
