AZ CORP COMMISSION  
DOCUMENT CONTROL

BEFORE THE ARIZONA

POWER PLANT AND TRANSMISSION LINE SITING COMMITTEE

IN THE MATTER OF THE APPLICATION OF  
ARIZONA PUBLIC SERVICE COMPANY IN  
CONFORMANCE WITH THE REQUIREMENTS  
OF ARIZONA REVISED STATUTES  
SECTION 40-360, et seq., FOR A CERTIFICATE  
OF ENVIRONMENTAL COMPATIBILITY  
AUTHORING THE WEST VALLEY SOUTH  
230 KV TRANSMISSION LINE PROJECT,  
INCLUDING THE CONSTRUCTION OF  
APPROXIMATELY 18 MILES OF 230 KV  
TRANSMISSION LINES AND THREE  
230 KV SUBSTATIONS IN MARICOPA  
COUNTY, ARIZONA, ORIGINATING  
SOUTH OF BROADWAY ROAD  
AT AN EXISTING 230 KV TRANSMISSION  
LINE IN SECTION 28, TOWNSHIP 1 NORTH,  
RANGE 2 WEST, G&SRB&M THAT WILL  
INTERCONNECT WITH THE PROPOSED  
TS4 SUBSTATION IN SECTION 19,  
TOWNSHIP 1 NORTH, RANGE 2 WEST AND  
CONTINUING TO THE PROPOSED TS3  
SUBSTATION IN SECTION 22,  
TOWNSHIP 2 NORTH, RANGE 2 WEST,  
G&SRB&M AND TERMINATING AT THE  
PROPOSED TS2 SUBSTATION IN SECTION 28,  
TOWNSHIP 3 NORTH, RANGE 2 WEST,  
G&SRB&M

Docket No.  
L-00000D-03-0122

Case No. 122

**ADDENDUM TO  
EXHIBITS**

Arizona Corporation Commission  
**DOCKETED**

SEP 15 2003

DOCKETED BY *DR*

1 Citrus & Northern LLC, Virgin Farms II, Virgin Farms Partners, Westside Wholesale  
2 Growers (Marilyn and John Hall), Warren and Jane Guard, Ed Brogdon, Pasqual and Christine  
3 Rudolfo, Michael and Noelia Rudolfo, William and Teri Weaver, Elijio and JoEllen Saenz,  
4 Robert and Mary Webster, Mark and Kelly Bozak, Carol Campise and Richard Winn (“South  
5 side of Olive Avenue Property Owners”) hereby submit to the Arizona Power Plant and  
6 Transmission Line Siting Committee (the “Committee”) an addendum to its Notice of Exhibits  
7 and Testimony. The South side of Olive Avenue Property Owners intend to utilize the following  
8 during the proceedings of the Committee relating to the West Valley-South 230kV transmission  
9 line project if South side of Olive Avenue Property Owners are granted permission to intervene  
10 in this matter.

11  
12 **I. Exhibits in Support of South side of Olive Avenue Property Owners Case**

13  
14 Witness 1

15 Bill VanAusdal, Maricopa County Parks Deputy Director and Chief of Park Police

16  
17 Explanation

18 Mr. VanAusdal is responsible for the daily operations of White Tank Regional Park  
19 which is the largest County park in the entire country. His testimony will confirm that Olive  
20 Avenue is and has been planned as the “Gateway to the Park” and is not an appropriate route for  
21 230kV transmission line siting.

22  
23 Exhibit 1

24 Photographs of archaeological sites in the Park  
25

1 Explanation

2 Besides the unique and natural beauty of White Tank Regional Park, the Park also has  
3 eleven archaeological sites of Hohokam people from 500-110 A.D. and petroglyphs.  
4

5 Exhibit 2

6 Park Trip Center area map  
7

8 Explanation

9 White Tank Park has over 40 miles of hiking. Since 1964 this Park has been carefully  
10 planned to entice visitors with its' unique beauty and abundant trails.  
11

12 Exhibit 3A & 3B

13 Photographs looking east towards the only entrance to the Park. This entrance is on  
14 Olive Avenue.  
15

16 Explanation

17 Olive Avenue is the only entrance into the Park and is planned to be the only entrance.  
18 The Parks Department has designated Olive Avenue as, "the Gateway to the Park." A simulated  
19 photograph shows the negative impact imposed on Olive Avenue if the Committee supports the  
20 alignment on Olive Avenue. Instead of a beautiful drive into the pristine Park, visitors will be  
21 subject to enormous metal cylinders and loud buzzing wires.  
22

23 Exhibit 4A & 4B

24 Photographs looking east on Olive Avenue from the entrance of the Park  
25

1 Explanation

2 Not only is Olive Avenue the only entrance into the Park, it also serves as the only exit.  
3 Visitors will leave the peacefulness of the Park and immediately see huge metal kV poles with  
4 multiple layers of wires.

5  
6 Exhibit 5A & 5B

7 Photographs of another County Park, Cave Creek Recreational Park, with power lines  
8 superimposed at the grand entryway.

9  
10 Explanation

11 These photographs show the negative visual impact of routing transmission lines at the  
12 grand entryway of a County Park. Luckily, these lines do not exist at either the entry to Cave  
13 Creek Recreational Park or, so far, at the entryway to the White Tank Park. These photographs  
14 also show how misplaced these poles are around any of the County Parks.

15  
16 Exhibit 6

17 Photograph of actual size of transmission pole

18  
19 Explanation

20 There are many different sizes of transmission poles. Some are made out of wood and  
21 some are made out of metal. The 230kV lines proposed are one of the largest types of poles.  
22 Currently, there are wooden poles on the north side of Olive, similar to the size of telephone  
23 poles. The proposed poles are more than twice the size of these existing poles. This photograph  
24 depicts the actual size of the poles proposed along Olive Avenue.
