“In addition to the measures outlined above, we believe it is appropriate for the Company to take additional steps in support of further consolidation before its next rate case. Accordingly, we ask the Company to undertake a study outlining consolidation proposals, inclusive of a full system-wide single-tariff consolidation option, which details possible timelines and pursues paths of least impact for customers. Additionally, the Company should monetize, identify and highlight all efficiencies it believes will be harnessed through consolidation proposals. The Company shall undertake this study in advance of its next rate case and utilize this information to inform further proposals in its future rate cases.”
