Dear Commissioners,

This last week I took my granddaughters and their friends out in the golf cart to show them our lovely Boulders Resort in Carefree. As we drove around the sewer plant, we were overcome with the horrible smell of sewer. The girls held their noses and complained, "What is that awful smell!" I was embarrassed and explained that we were not suppose to be smelling sewer after all this time and that I thought the problem had been fixed. The next night we went out again after dinner and again were repulsed by the horrendous odor all around the sewer plant.

We have lived in the Boulders Resort for 20 years and have been fighting this odor situation for all that time. Please decommission the plant and move the plant elsewhere. We are sick and tired of this constant problem and had hoped by now that something could be done to correct it and rid us of this burden.

Sincerely,

Sally Denton
