Subject: Support for Global's Rate Case

ORIGINAL

Commissioner Newman:

I wanted to drop you a quick email to express my support for Global Water's rate case which I believe is set to be heard in Open Meeting tomorrow.

As you may be aware, I have been participating as a member of the Responsible Water Group, headed by Paul Walker. We are all enthusiastic about the potential of working together with ACC's Staff, Commissioners and the State Legislators to improve and streamline the commission's processes and decisions for the benefit of companies and ratepayers alike.

Since Global will be in front of you tomorrow, I wanted to express my support for Global's proposal with respect to the recognition of ICFA fees. Their creative approach appears to align perfectly with the commissions goal of encouraging consolidation and conservation. The ability to use these funds for acquisitions without being considered CIAC should be strongly considered, so long as they do not go to the construction of plant. If nothing else, this approach could become a useful tool that could be evaluated by the commission on a case-by-case basis.

Thanks for your consideration and leadership.

Sincerely,

Jason Williamson
President
