DOCKETED

AUG 27 2010

DOCKETED BY

10 **BEFORE THE ARIZONA CORPORATION COMMISSION**

11
12 IN THE MATTER OF THE APPLICATION OF
13 ARIZONA WATER COMPANY, AN ARIZONA
14 CORPORATION, FOR A DETERMINATION OF
15 THE FAIR VALUE OF ITS UTILITY PLANT
16 AND PROPERTY, AND FOR ADJUSTMENTS
17 TO ITS RATES AND CHARGES FOR UTILITY
18 SERVICE AND FOR CERTAIN RELATED
19 APPROVALS BASED THEREON.

DOCKET NO. W-01445A-08-0440

**CERTIFICATE OF FILING
COMPLIANCE ITEM**

20 Decision No. 71845, entered by the Arizona Corporation Commission on August 24, 2010
21 directed Arizona Water Company (the "Company") to, among other things, file with Docket
22 Control, as a compliance item in this case, a copy of its Approval of Construction from the
23 Arizona Department of Environmental Quality, for the proposed arsenic treatment plant for the
24 Company's Valley Vista system's Well No. 55-212110, by no later than September 30, 2010.

25 The Company is now filing the required Approval of Construction, which is Attachment
26 A hereto.

APPROVAL OF CONSTRUCTION

Project Description: Valley Vista Well #13 Arsenic Treatment System. Replace existing arsenic treatment system with one that provides higher arsenic removal capacity from 50 gpm to 450 gpm. Install backwash holding tank and 1" chlorine feed line prior to arsenic treatment to oxidize arsenic III to arsenic IV.

Location: Big Park/Yavapai County

Project Owner: Arizona Water Company
Address: 3805 North Black Canyon Highway, Phoenix, AZ 85015

The Arizona Department of Environmental Quality (ADEQ) hereby issues an Approval of Construction for the above-described facility based on the following provisions of Arizona Administrative Code (A.A.C.) R18-5-507 et seq.

On March 8, 2010, ADEQ issued a Certificate of Approval to Construct for the referenced project.

On May 19, 2010, Michael P. Valentine, P.E., certified the following:

- a final construction inspection was conducted on May 13, 2010
- the referenced project was constructed according to the as-built plans and specifications and ADEQ's Certificate of Approval to Construct;
- water system pressure and leakage tests were conducted on May 7, 2010, and the results were within the allowable leakage rates; and
- the water distribution system was disinfected according to an ADEQ-approved method.
- influent and effluent water samples for arsenic analysis were collected on May 13, 2010, and the results show water treated from 31 ppb to ND.

Microbiological samples were collected on May 8, 2010, analysis started on May 9, 2010, and sample analyzed on May 10, 2010, by Statewide Disinfection Service, ADHS License No. AZ0637. The sample results were negative for total coliform.

This Approval of Construction authorizes the owner to begin operating the above-described facilities as represented in the approved plan on file with the ADEQ. Be advised that A.A.C. R18-5-124 requires the owner of a public water system to maintain and operate all water production, treatment and distribution facilities in accordance with ADEQ Safe Drinking Water Rules.
