RE: ADEQ Compliance Status Report
W-02105A-07-0510 Decision 70837

Here is the ADEQ compliance report due for the month of October. We are currently in compliance with ADEQ. We have installed 4 new meters in an ongoing effort to reduce our water loss per the directives of ADEQ and the ACC. Many of the meters that currently need replaced belong to businesses that are on main lines. The field staff will have to carefully coordinate these change outs so as not to disrupt water service during business hours. There is also a danger of causing a line break when changing old meters on a main line so all field operators will have to be on hand. Some of the well heads have been recaulked and repainted as a normal maintenance item.

Any additional information you need, please contact me anytime.
