ORIGINAL

Mr Pierce, just a quick note to say "THANKS" to you & all Commissioners re the recent rate hearing/decision...it was an interesting process & renews my faith in government that so much sincere thought was put into this by all involved. Thank you for giving us a forum to actually be heard!
Sincerely.

Subject: Global Water Rate Increase

Mr. Pierce:

How can you "guarantee" Global Water would earn 24 million dollars from Maricopa residents? Obviously no one expected the economy to decline and for Maricopa to suffer the massive loss in housing that it has seen. The problem is very simple, Global Water got caught up in the housing boom and expected Maricopa to continue to build 6,000 homes a year, and the boom ended. Maricopa is now on track to build 200 homes in 2010, and it is not reasonable to burden current residents with a rate increase that would not be necessary if new construction had continued at the same rate. Mr. Hill has no sympathy for us, well I have no sympathy for Global Water; they need to suck it up until the economy starts growing again.
