Subject: RE: Goodman Water 53% rate increase

Good Morning Mr. Fladeboe,

It is inappropriate for a sitting Commissioner to Comment on a pendent rate proceeding. The Commissioners act as Appellate Judges to all Commission Recommended Orders. It is not appropriate and ethically nebulous for anyone-- Commissioner of Candidate who could possibly rule on a rate case in the near future to comment. Doing so invites litigation and could cause those persons to have to recuse themselves from sitting on this case.

Please contact our office if you have any more questions.

Hello Antonio, I am disappointed that Gary didnt answer me back. At any rate, the two demoratic candidates personally emailed me first thing this morning to let me know that the would never approve a 53% increase. At the end of the day Gary probably wont either. The problem is that the higher the request the higher the approved percentage. What then is Gary's stance on reprimanding or faltly rejecting without negotiation an inflated rate increase. In other words what assurance do I have that the Commission will act responsibly in the face of grossly inflated rate increase requests? As homeowners we are out on a limb with the water monopoly. We are not interested in glittering generalities like 'we will fight for you'. I want to hear 'I will fully reject an unjust rate increase without negotiation'.

On another note please email me a copy of the instrument that prohibits speaking about pendant matters outside of a Commission sponsored Open Meeting.

Thanks
Roger Fladeboe

Good Afternoon Mr. Fladeboe,

RECEIVED
2010 OCT 13 P 1:57
DOCKET CONTROL

The Goodman Water rate application is a pendant matter before the Arizona Corporation Commission. The Commissioners are prohibited from speaking about pendant matters outside of a Commission sponsored Open Meeting. The application was filed on September 17th, 2010- and has not been adequately researched by the Commission's Utility Division. I would expect a staff report within the next 3 months. You may follow the case on the Commission's web site by navigating to the following site and searching the docket number W-02500a-10-0382.

Good morning Gary, I am filling out my early voting ballot this morning and need to know where you stand on the Goodman Water 53% increase request. Please get back to me as soon as possible.

Thanks
Roger Fladeboe
