I was not aware that monopolies were legal. However I am not up on Arizona's laws as I am California. I ask that you as the deciding body consider this ~~is~~ insane request by Goodman Water of a 53.4% increase in Eagle Crest water rates not justifiable. I think not only should RUCO but ACC & all other involved entities look @ this from a legal aspect but also a practical, moral and ~~legal~~ ^{ethical} aspect. If indeed this is approved we will have no choice but to start neglecting yards and properties which in turn have a ripple down effect on purchases & sales of homes. Neighborhoods will become ugly & uncared for and eventually crime will sup in - then who ^{Step 4} will Goodman have left to gauge to satisfy their greedy appetite.

I see no reason why the Residents
of Eagle Crest Ranch should be penalized
for Goodman's bad business judgement
and greediness and held hostage to
their unjust demands.

Eagle Crest is a neighborhood comprised
of young & middle aged working people
with families & many seniors on fixed
incomes. This demand by Goodman Water
is totally insane ~~and~~ and is gouging us
to make up for Goodman's bad business
judgement.

I ask that all these factors be considered
in your decision making.

Thank you.

The proposed rate increase by Goodman Water needs to be DENIED. We've already suffered with a ~~153~~ 135% increase 3 years ago and now they want to increase another 53% because they made some foolish decisions and now need a bail-out. We're in a recession and these homeowners are already strapped. I have a large vegetable garden to grow food for my family. Once this

rate increase goes through, it ~~was~~ won't be financially feasible to grow my food. My water bill will be at least \$150 a month.

The households in Tucson are only paying about \$30 a month for the same amount of water usage.

Three years ago, when our rates were increased, I made sure I did not vote for the ACC members that were on the commission when re-elections came up.

There are at least 1000 voters in this neighborhood. We're banding together on this.

I could understand if Goodman was operating at a loss, but they had a good profit last year. Lets not let them be greedy and take advantage of their monopoly status (which I thought was illegal in America — evidently not!).

Dear Members of the Arizona Corporation Commission,
Please deny Goodman Water Company's rate increase for the following reasons:

1. Requesting excessive profits as a utility company.
2. Losses for poor development decisions should not be passed on to customers.
 - a) Over scaled water system for maximum houses that could ever be built in the housing development (twice the size capacity of the homes that could be built).
3. The greatly excessive water utility rates compared to all adjacent communities are already devaluing resale home values.
4. Monopolies should be ethically managed. Unjust and greedy use of state granted power to a monopoly.

Arizona Corporation Commission Docket Number W-02500A-10-0382
Goodman Water Company

My husband and I retired and moved to Arizona just before the economic downturn. Since then we have been living on a fixed income while our nest egg dwindled and our home value declined. It has been a nightmare that we saved our whole life for and we are at an age where we don't have the time to recover.

Goodman Water is proposing a rate increase that would harmfully impact our living standard and our property value. I am writing this letter to demand that this rate increase be denied. Goodman Water is asking for 35% net profits on the backs of families struggling to make ends meet. We will be paying 400% higher for our water than the surrounding communities of Saddlebrook and Catalina.

Goodman Water made a bad business decision to build the water system with twice the capacity as needed for this tract. This excess capacity should be taken out of the Fair Value Rate Base. They are the only water company in the greater Tucson area that does not charge Impact Fees. This must be required for all future homes built.

How can the little people fight this monopoly? We are their only customer and they can hire all the attorneys they need and just pass the cost to us. I urge you to make the right decision and deny this rate increase.

Docket #W-02500A-10-0382

To: Arizona Corporation Commission

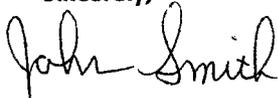

Dear

As a homeowner in Eagle Crest Ranch in Tucson, I am appalled at the proposed rate increase by Goodman Water that is before your commission. I am a family man working in an area that has seen some hard times. I cannot fathom the fact that the ACC would grant a water company a guaranteed profit of 9% to 11% when I make less than 2% on my investments with no guarantee.

With the 124% increase granted in 2008 and the proposed 54% increase this time, my water bill has gone up approximately \$70.00 a month. That is \$70.00 that I do not have to go out to dinner, the movies, go shopping, etc. This is money that would be going back into my community in the way of sales tax but instead will go directly into the pocket of a greedy water company.

I demand that as elected officials that you vote against such an outrageous increase.

Sincerely,

A handwritten signature in cursive script that reads "John Smith".

John Smith

Resident of Eagle Crest Ranch

October 11, 2010

To the Arizona Corporation Commission

My name is Shanna Jacobs and I am a resident at Eagle Crest Ranch in Tucson, Arizona. I am writing you today to ask you to PLEASE deny the requested rate increase presented by Goodman Water Company. The docket number is W-02500A-10-0382.

The rate amount that Goodman Water is requesting to increase is outrageous and completely unfair. As an Eagle Crest Ranch resident, I could pay greater than 400% more for my water than adjacent communities such as Catalina and Saddlebrook who have different water providers.

Back in 2007, the ACC approved Goodman Water Company a rate increase. My water bill was \$35.00 per month and because of the rate increase my bill went up to \$70.00 per month. If you do not deny Goodman Water Company their request for ANOTHER rate increase, my water bill will go up to almost \$110.00 per month! This is completely UNACCEPTABLE!

I am on a strict budget, as I'm sure most residents are in this tough economic time. This increase would put great stress on me and my family.

PLEASE do not approve this increase. Goodman Water Company is a State sanctioned Monopoly. If you don't stop them now, they will continue to abuse the system and abuse us as homeowners and residents in Eagle Crest Ranch.

I am requesting implementation of Impact Fees; also known as Hookup Fees, for all future ON-SITE homes. This will prevent higher cost being passed onto current residents.

I am a registered voter. I faithfully implement my right to vote. YOU represent me! YOU are my advocate! Please remember this when you are making your decision to deny Goodman Water Company their request for a rate increase.

DENY THE RATE INCREASE REQUESTED BY GOODMAN WATER COMPANY!

Sincerely,

Shanna Jacobs

I Demand that the Rate Increase be DENIED. No Bail Out for a bad business decision to over build the Water System. Take Out Excess Capacity from Fair Value Rate Base. Raising the Water Rates 53.14% will affect our Family's Quality of Life and raise our Water Bill from 60.00 per month to over \$100.00 per month. I am a Senior Citizens retired and on a fixed income. This increase would amount to about 10% of our family's income. In addition, by raising our Water Rate would have an effect on the future Value of our Home. I Demand Implementation of Impact Fees a.k.a. Hookup Fees for all future ON-SITE homes. Eagle Crest Ranch could pay greater than 400% more for their water than adjacent communities (Catalina & Saddle Brooke), if this proposed increase is approved. Eagle Crest Ranch residents are the only customers of Goodman Water Company. Goodman Water Company is a State sanctioned Monopoly. It's just not fair to residents of Eagle Crest Ranch to raise our Water Rates just so Goodman Water can net \$200,000 in profit next year at our expense.

OV council looks at water rate increase

AVERAGE INCREASE \$1.60 A MONTH

The Oro Valley Town Council plans to discuss a proposal to increase water rates on Wednesday night.

The proposal from town water director Philip Saletta, on tap for discussion at the Oct. 6 meeting, asks the council to approve a 4.1 percent rate increase for residential customers. That increase is based on the water usage of the average Oro Valley household, about 8,000 gallons per month. Most residential customers would pay an additional \$1.60 per month, according to a water utility analysis.

Base rates would remain the same under the proposal. The changes would impact the monthly groundwater preservation fees. Currently, residential customers pay 75 cents in groundwater preservation fees per 1,000 gallons of water used.

Also proposed is a \$5 increase to the service establishment fee. The change would bring the fee to \$35 to set up water service for residential

There is no other subdivision in Tucson where the water Bills are this exorbitant. Surrounding communities average between \$18-\$27. Our average Bill is \$100. For 2 adults who only do laundry every 2-3 weeks ~~our~~ our water Bills cut drastically into our Social Security, and we cannot bear this unfair & betrayous increase to cover costs because Goodman Water overbuilt the system to cover 1800 homes when there is only room to build 920 homes & there are only 650 homes built Step 4 due to the recession/depression!

Re: Goodman Water Co. proposed rate increase

Docket Number: W-02500A-10-0382

Attention: Kristian Mayes

I attended a meeting of concerned residence living in Eagle Crest Ranch. Most residents are retired or young families. A rate increase by Goodman Water Co., of this magnitude, would affect the quality of life for all concerned.

Eagle Crest residents are the only customers of Goodman Water Company. We should not be held responsible for bad business decisions, made by Goodman, to over build the water system.

Home values in our neighborhood have dropped due to the recession. Water rates will also affect our values. Eagle Crest could become a "ghost town"!!!

Do not approve this rate increase request! Hookup fees for all future on-site homes should be implemented.

Thank you,

To Whom It May Concern:

As current and active residents of Eagle Crest Ranch the Ryser family is against the rate increase proposed by Goodman Water. **We request that this rate increase be denied.** We feel that this rate increase is due to their lax and inaccurate business decisions, and should not be passed on to us as residents in the form of an inflated water bill. Water affects our family of three, and due to **the last two increases enacted**, we had to change our landscaping, to not include a pool or jacuzzi. Our bill has already risen from 40.00 to 120.00 dollars. Goodman Water has over stepped their bounds as a utility company and instead has become a monopolizing water source of increasing greed, holding all current Eagle Crest residents hostage. Many young families and senior residents on fixed incomes live here. If this current water rate increase is granted Eagle Crest could very well become "Eagle Crest Ghost Ranch."

Sincerely,

Lori Ryser and Alex Ryser

AS ELECTED OFFICIALS I URGE you TO Deny The RATE INCREASE PROPOSED BY THE MONOPOLY OF GOODMAN WATER COMPANY. Since Buying our house in Eagle Crest Ranch in 2004, our WATER RATES HAVE INCREASED OVER 100%. Now Goodman Water is asking for an ADDITIONAL 53%! This is OUTRAGEOUS! We are paying 500% more already than our neighbors in Saddle Brook + Catalina. This REALLY HURTS many residents struggling in this economy as it is. The communities surrounding Eagle Crest Ranch pay much lower rates for their water. This proposed increase would negatively affect our property values.

Goodman Water Company installed a water system for 1,800 homes, but there is only room for about 950 homes. Why should ECR residents have to pay for their mistake? Why would anyone buy a home here if the water is so expensive?

PLEASE PLEASE PLEASE deny Goodman Water Company's rate increase application!

We already pay too much in the form of a water meter charge - which is a charge for 'potential' water use. A more than 50% increase is exhorbitant. If you approve it count on a very unpleasant backlash.

I do not believe that a for-profit company needs to increase it's rates by 53% for the sake of business. This amount of money is going to fill their pockets. Someone needs to protect the consumer from this gouging. It's time to put an end to letting the monopolies take advantage of the consumers (we have no alternative water company here) only to make their purses fatter. Tell them with your vote you're not going to tolerate it.

I ask you to stop the bail out of Goodman Water. The increase they are asking for will greatly harm persons like myself who live on a fixed income. The last increase which occurred in 2007 caused a great strain, while this new increase will hurt my already hard hit income even harder. There are no increases projected for my social security so why should they get this increase which will add to their profits?

Re: Goodman Water Company Doc.#W-02500A-10-0382

I am writing to you because I'm concerned about the proposed rate increase by Goodman Water. I urge you to deny this request. Eagle Crest Ranch is being held hostage by Goodman Water because it is a monopoly.

The community is paying three times the amount than our surrounding communities of Saddlebrook, Catalina and Oro Valley. For example I pay on average \$89.00 per month for 3200 gallons of water usage compared to \$25.00 that my friend in Saddlebrook. My friend in Saddlebrook uses approximately 4500 to 5000 gallons per month and they still pay less for the water. The \$89.00 I pay per month does not include sewage service and that's an additional 27.00 per month that I pay to the City of Tucson. If the rate increase is approved, Eagle Crest Ranch could pay greater than 400% more for their water than adjacent communities.

When I purchased my home in 2007 DR. Horton did not disclose that they were part owners of Goodman Water nor was I aware that Eagle Crest is the sole customer of Goodman Water. This is a conflict of interest. I know that having a monopoly in water is legal in Arizona and I will be working diligently in changing that law. If this rate increase is approved, I will participate with my fellow citizens to vote you and your supporters out of office.

Sincerely,

Nina G. Borland

As a voter and member of the Eagle Crest HOA, I want to alert you to a fact that you may or may not be aware of. Goodman Water Co. has requested a rate increase for the water that feeds our homes. They

received, against our wishes, three years ago a rate increase of over 100%. This new increase they want will be 53%! We are held hostage by this company, so to speak, as we have not other water source available to us. This increase will make our water bill approximately 500% percent more than our neighbors in Saddlebrook and in Catalina. Those communities pay \$25 per month for 6000 gallons of water, our rate will increase to more than \$100 a month.

I am a semi retired single woman and live alone, I do not abuse water use. I run a dishwasher every other week and do laundry every other week. My drip system is used sparingly. My bill is closer to \$60 a month than \$50, and for the last two months \$82 because I lost three trees in a storm and have replaced them. They are desert trees.

This rate hike, while I am sure Goodman Water Co feels is justified, is just robbery to those of us who reside in Eagle Crest. We should not be burdened by the water companies operation issues that make them feel justified in asking your office for a hike. Please put a stop to this. I vote, and my neighbors vote. We are all very concerned about this issue. We would like the Corporation Commission to reject Goodman Water Company's request. I will be forwarding this message on to other entities and my neighbors.

I, Hansgeorg Stanisch, 39709 South Horse Run Drive, Tucson AZ 85739, 520-818-2143, am a customer of Goodman Water Company. I do not believe that Goodman Water Company is entitled to raise their rates for 53 percent. For the normal citizen who uses water with respect and common sense, the outrages increase of water rates penalize the citizens of our community for the lack of action on part of the company to cut cost by reasonable planning and management. Most of the people in Eagle Crest are retired on fixed income and young couples with children on tight budgets. We are already paying 500% higher water rates than our neighboring communities. I do believe that the company should be held fully accountable. If the regulations need to be reviewed and changed by the Arizona Corporations Commission, that should be accomplished to promote fair competition in Arizona and end the monopoly system.

Goodman water Co. received a 100% rate increase only 3 years ago, now they want to increase the rate by another 53%. How much do you pay for your monthly water bill? Our neighboring communities pay an average of \$20⁰⁰ a month, my bill averages \$65 a month, with the increase it will go up to approx. \$100⁰⁰ a month. This is not fair, somebody is getting rich at our expense. This will be an undue hardship on my family and our community. Maybe we need to investigate the commission - who would ever allow a 100% increase unless they were in on the take - sounds like the mafia or Bell, CA - officials getting rich at our expense!

I am asking you to DENY the rate increase that Goodman Water Company has requested, **Docket Number W-02500A-10-0382**. This increase of nearly 53% would hurt my family as well as many others in the Eagle Crest Ranch subdivision. Goodman Water Co. made profits of over \$30,000 last year during a recession while my husband lost his job. We are struggling to keep our home and an increase of this magnitude might just push us into foreclosure. Perhaps you should check on the number of foreclosures that have already hit the subdivision. This excessive increase would only lead to more.

Goodman Water Co. is a State sanctioned Monopoly and wants to net over \$200,000 in profits next year. The increase they are requesting is over the top. If you allow this to happen Eagle Crest Ranch would be paying the highest water rates in the area. In fact it would be 400% more than surrounding area. The last rate increase you approved for Goodman Water was an increase of 124%. I feel they made bad business decisions and now they want us, their customers, to bail them out. They overbuilt their water system with the capacity for 1,800 homes and we only have 650 and only have lots platted for 900 and some. What were they thinking??

Why don't we have an impact/hookup fee like the surrounding communities, Tucson, Oro Valley, or Marana? It would be my suggestion that you deny this rate increase request and have Goodman Water start charging a hookup fee for future home that are built.

I thank you for your time and hope you will think of the people in the community and not just Goodman Water Company and their need for greed.

Please, please, please deny Goodman Water Co. this outrageous rate increase, especially after the 2007 increase of 165%. I am a widow on a fixed income. Goodman has made an investment in facilities to provide water to a large number of future homes. Due to the housing condition, these homes have not been built.

Goodman now wants it's present customers to bail them out.

This rate increase will cause my water usage cost to go from \$70.00 per month to about \$105.00 for about 6000 gallons. I am on Social Security and this increase will create a financial burden on my wife and I.

Goodman used the word FAIR liberally in their request. This is not FAIR in any respect to the residents of Eagle Crest Ranch.

Please deny this request.

As a resident of Eagle Crest Ranch, I am requesting your attention to the rate increase being proposed by Goodman Water Company. Three years ago, Goodman Water Company raised their rates, and the voices of the Eagle Crest residents against such increase went unheard -- we were stuck with an increase of over 100%. Now the proposed increase would raise our rates 53%!

I am retired, living on a fixed income, adhering to a very strict budget in order to protect the home of my retirement. Increases of the type proposed by Goodman Water Company are a big threat no only to my peace of mind but also to my solvency. Please put a stop to this type of corporate abuse.

- A water rate increase of 53% is out ragious. The current economy is causing families to struggle financially. Any added burden may lead to more home forelosures or having to choose between essential services, medical costs and/or food.
- My husband and I are public school teachers and much watch our finances closely. The state has recently increased our retirement health insurance by 20% and a 53% increase in the water rate is to much of a burden.
- A few years ago the Goodman Water Company obtained a 100% rate increase. Although the increase was excessive, this was during a time of rapid housing development and a booming economy. A rate increase of this magnitude, at this time, should not be considered appropriate.

AS a homeowner in Eagle Crest Ranch, I am opposed to the rate increase proposed by Goodman Water. The previous rate increase of 2007 was extremely high, and the amount of homes in Eagle Crest Ranch does not provide enough base to increase the rate again. The high water bill affects our home values when trying to sell properties. No one wants to move into a home with a \$140 water bill for 13,000 gallons of water used per month. This current economy has put a hardship on everyone, and we just cannot afford a higher rate at the present time. Please consider denying this rate increase as it will hurt our entire development. I should NOT have to pay for bad business decisions made by Goodman water. They put in a facility to handle 1800 homes when the total build out is 920 homes. in today's economy people will not buy in our community when the cost to live here is so outrageous !!!

The proposed rate increase by Goodman Water Co. creates a financial hardship at this time in our life. My husband and I are retired and on fixed incomes. We keep our water consumption at the lowest level and yet our monthly water bill is larger than our average electric/gas/sewer bills. We just cannot afford to pay more. Three years ago Goodman Water Co. received approval for a substantial rate increase. Our water bill jumped from \$40 to \$60 a month. We urge you to be sensitive to the needs of the residents when you consider the proposed rate increase in these difficult economic times. Thank you.

Goodman water is proposing its second significant rate increase in the past three years which makes it challenging for home owners to pay, when their wages have not increased at the same rate. RE: Docket # W-02500A-10-0382

Dear Sir/Madam:

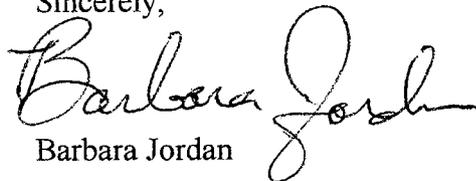

I just moved to Arizona from Colorado. My sister and brother-in-law (Mary and Doug Denney) recently bought the house at the above address so that I may live in a climate better suited to my health issues than the very high elevation cabin I have been in. Because I have a very, very, very limited income, we agreed as a family that I am to pay the utilities and may live here for free. It seemed like a dream come true for me and a chance to live a healthier lifestyle. Now, that dream may end because of the price of water that Goodman WC is requesting. I may have to go back to Colorado, and Doug and Mary Denney will have to try to sell the home.

Deny the rate increase! Just because Goodman made a bad business decision to over build the water system, their mistake should not be passed on to Eagle Crest Ranch home owners. Why should you bail them out and leave us to bear the expense. They are making a profit now. Why can't they be satisfied with that in this economy? And, to top it all off, there seems to be a conflict of interest between the Eagle Crest Ranch developer, D. R. Horton and Goodman Water Company.

How can anyone justify Eagle Crest paying a possible **400% more for their water than neighboring Saddlebrooke or Catalina**. Also, do not allow Goodman to pass on their legal fees back to us in order to fight our cause. We, the people, end up paying every which way. How is this American?

This is immoral. It is extortion. Please stand up for us.

Sincerely,

Barbara Jordan

Why should homeowners be responsible to pay for a BAD BUSINESS plan AND excessive infrastructure build for 1800 Homes when capacity of homes for this development is only about 900. Why was there no impact fees or hook-up fees for any of the existing houses AND will there be impact fees or hook-up fees for future houses. If not, there should be. This rate increase is not warranted AND I believe it should be denied. How is it possible that our rates will go from 42.20 to 56.97 without it using a drop of water AND then water AND taxes go on top of those rates. This is not fair. My water rates will be more than my electric bills. This is unheard of. I will have to start eating Rice AND Beans. There is no way I will be able to afford to live AND pay ANY others bills because of these proposed increases. There are people who live ON limited budgets AND I do live within my means AND this will affect my life in a huge way. The ACC is in place to make it fair for both consumers AND corporations AND if this increase is approved the ACC is not doing their job. This rate increase is not fair for the consumer.

We live in Eagle crest Ranch, and we are very unhappy about our water Company (Goodman water). wanting to increase our rates to 53.14%. These rates increases are not fair or justified. Its wrong that we have to pay for a system that was built for 1,800 hookups and there is only going to be 920 lots sold. There is definatly something wrong here. We bought our home six years ago, and no one told us anything about this. We are Senior Citizens who are liveing on a fixed income, and its very hard in this recession to make it. How are we supposed to pay for these exhorbitent prices? And who would want to buy our homes if they had to pay this much for water? I just pray to god the people who are trying to do this to us, can sleep at night just to make their profits. Times are hard enough to live on what we have now" with out doing this to Senior Citizens and young families.

Goodman Water raised our water rates 3 years ago by 100%. Now they are requesting a 50% increase to produce what they call a fair and just rate of return even though we currently pay three times more than our neighbors serviced by other companies. Only 2 people live in my household. I only have four plants in my front yard and nothing but dirt in my back yard. Currently, my water bill averages of \$60 per month. This is already petty high considering that we are not home most of the day and my four plants are on a drip system.

With a background in water treatment, all I can say about this rate increase is that it is grossly incredulous! I'm looking forward to your careful review of the rate increase during this time of economic difficulty for all of us.

To Whom It May Concern:

This letter is in regards to the Goodman Water Co. proposed rate increase, Docket Number W02500a-10-0382.

The Goodman Water Co. wants to increase their monthly Minimum Per Meter Size by 35%. Proposed increases per 1,000 gallons of water are 72% to 85%. This is on top of a rate increase three years ago. **This is unconscionable.** If approved Eagle Crest Ranch residents like me could be paying **400% more for water** than the adjacent communities of Catalina and Saddlebrook. I am retired and rely on Social Security. A huge increase in water rates will negatively impact my quality-of-life, not to mention my buying power. **I implore you to deny the proposed increase.**

This water rate increase should be denied! Currently, Goodman Water is charging a significantly larger amount for water compared to surrounding communities. Now, they are trying to raise our rates by 53%, more than 400% more than those same communities, in order to bail themselves out from a bad business decision. Goodman water has our community in a monopoly. We have no choice in our water and we are their only customers as an Eagle Crest Ranch community. If Goodman water were an honest business, they would not do this to the families in our community. An increase in our water will affect our household greatly. The additional cost is equal to the co-pay for 2-3 speech or occupational therapy sessions for our son with autism. It is equal to an additional cell phone bill or week of groceries. This increase is not in our already tight budget. We should not pay for the shady business dealings between Goodman Water and the developer. They can get the money from other sources.

The Goodman Water Co increase must be denied. Eagle Crest residents are hostage to a water Co. (monopoly) that made a profit in a recession while retirees and working families are struggling to hold on to their mortgages. Increases of 50% to 100% effect our quality of life. The economy makes it virtually impossible to sell our houses and move to adjacent communities whose water rates are far less. Our only recourse, (if the commission approves the increase) is to Vote out commissioners that continue to approve an unjust increase.

Goodman Water is the only ^{water} company that services Eagle Crest Ranch & is at least 3 times as expensive as Catalina, which is right across the road. It is more expensive than Saddlebrook by 500%. We have all lost money on our houses (more than 125% in my case) and cannot afford such expensive utilities. A couple years ago, Goodman raised rates by 100%

it is not fair for them to raise rates so high again this year. DR Horton is part of Goodman Water ^{Step 4} so we have no choice in this monopoly.

To Whom It May Concern:

As current and active residents of Eagle Crest Ranch the Ryser family is against the rate increase proposed by Goodman Water.

1. **We request that this rate increase be denied.** We feel that this rate increase is due to their lax and inaccurate business decisions, and should not be passed on to us as residents in the form of an inflated water bill.
2. Water affects our family of three, and due to **the last two increases enacted**, we had to change our landscaping, to not include a pool or jacuzzi. Our bill has already risen from 40.00 to 120.00 dollars.
3. Goodman Water has over stepped their bounds as a utility company and instead has become a monopolizing water source of increasing greed. In effect holding all current Eagle Crest residents hostage. Many young families and senior residents on fixed incomes live here. If this current water rate increase is granted Eagle Crest could very well become "Eagle Crest Ghost Ranch."

Sincerely,

Todd Ryser

RATES SHOULD BE DENIED NO QUESTION. YOU WOULD NEVER PASS THE INCREASE IF YOU LIVED HERE.

Why should Eagle Crest Ranch bail out Goodman water for the bad business decisions they made.

What private company gets to make a guaranteed \$200K before they provide the service. NOT RIGHT

YOU BETTER COMPARE RATES AROUND US, WE ARE GETTING RIPPED OFF FOR A SERVICE WE NEED BY A MONOPOLY IN GOODMAN WATER

I request that Goodman Water's request to raise our water rate be denied. This company is a monopoly and it is not fair that they be allowed to increase our water rates for the Eagle Crest community. Our family can not afford this kind of a rate increase especially since the rates were increased '07. Our neighboring communities pay much less which at this time makes our housing values less; this would only add to that burden and devalue our property even more.

To Whom It May Concern,

This letter is in response to a proposed rate increase by Goodman Water Co., Docket No. W-01500A-10-0382.

Goodman Water Co. wants to increase their monthly minimum by 35%, and increase their per thousand gallons charge 72% to 85%. This is unreasonable. They had a hefty rate increase three years ago. This could mean I could be paying 400% more for the same amount of water than in the adjacent communities of Saddlebrooke and Catalina. I don't like that.

Research shows that Goodman overbuilt their system—by almost 50%. This excess should be removed from the Fair Value Rate Base. We shouldn't have to foot the bill for their bad business decision.

A local realtor stated that today's homebuyers are pretty "savvy" and are interested in the utility rates in the area they're interested in. Excessive water rates will drive potential buyers elsewhere.

Our family's quality of life will surely suffer if the increase is approved. The increase is excessive. I ask you to deny Goodman's request.

Respectfully,

Michael G. Hollar

This development has been mismanaged from its start, especially with respect to "disclosure" to its residents. DR Horton has been at the core of this, not only with Goodman Water but with not properly removing homes from the flood plain (we have to keep flood insurance in place because they did not do their job). Now Goodman, who partners with DR Horton, wants to raise rates. The fact is they've overbuilt the water system for this subdivision when there aren't enough residents to cover their expenses and poor decisions (no impact fees) and they're proposing the increase to generate a profit. Their bad decisions should be funded from capital by their investors. Our bill will be \$50+ before we even use any water if you approve this increase. We cannot afford it & respectfully demand this be denied.

Do NOT approve the rate increase. We should not pay for Goodman's bad decisions. They could increase their profits by taking pay cuts not putting more hardship on us. We don't have to option of going to another company, so the rates are not competitive. Our builder is contracted with them and they get a portion of the profits, they are bias. This would cause some struggling families to move. Others will greatly decrease the amount of water used. Anyone that votes to pass this WILL NOT be reelected! It is my understanding that the Goodman water company is requesting a 53% rate increase in water. I find this totally unacceptable. My wife and I are paying a high price now, as it is. This hike will put a strain on my finances now. A 53% hike increase right now in the economic downturn is deplorable.

The rate increase proposed in the above mentioned docket needs to be denied. If approved, the only customers of Goodman Water, the residents of ~~East Eagle~~ ^{East Eagle} Crest Ranch, will be paying 400% more for the same amount of water than adjacent communities. Whereas this may not be of any concern to you, consider this: A community of taxpayers is being gouged by a small monopoly during a recession. A recession that has forced many into short sales and/or foreclosures, has our state raising taxes, has our Fire and Police departments jeopardized. By approving, you tell the people of this community and this state that bad business decisions by a small utility monopoly is more important

than the public safety. If Goodman Water is incapable of running a fair business; then it needs to fail. The people of Eagle Crest Ranch, being the only ones affected by this, should not be forced to pay disproportionately and unreasonably high rates because the monopoly that controls their water cannot run a business. The increase is not in the people of Eagle Crest Ranch's best interest, nor is it in the best interest of a company that cannot run through a recession without gouging the consumers. GOODMAN WATER RATE INCREASE
DOCKET NUMBER: W-025001-10-0382
UTILITY NAME: GOODMAN WATER COMPANY
POSITION ON THE DOCKET: CON

I am writing in opposition to the outrageous rate increase being requested by Goodman Water Company.

The impact of Goodman's previous rate increase, in 2007, has been painful for our family, particularly at this time in our nation's economic history, and due to our own economic circumstances. It has turned our retirement home into an economic albatross. Our water bill is now a major expense, and threatens to become unmanageable. We have always been frugal in our water usage, and our water bill was relatively minor. Now it casts a dark shadow over our finances every month.

I am a 71-year-old retired person. My wife and I bought our home in Eagle Crest in 2005 to be near our daughter. She is now the mother of our beautiful 6-month-old grandson. During her pregnancy she was divorced, *and* lost her job when her nonprofit agency lost its funding. We are now a major source of support for her and our grandson. Now we are being told we must pay many times more than all neighboring systems because of the poor business judgment, an economic gamble by major investors who apparently believed that they could safely gamble because they would be guaranteed protection from any potential downside, should their gamble fail.

The gamble is the extremely expensive overbuilding of our water system, premised on 1800 homes utilizing Goodman's water. Neither we nor our neighbors were advised by Goodman or D.R. Horton about this material risk, for reasons that are now obvious: Goodman expected to profit handsomely from the property it controlled in "Eagle Crest West." D.R. Horton was part owner of the water company, and also stood to profit handsomely from this gamble if it succeeded. No one advised us of this risk, since fair warning would have deterred buyers.

Now we are being threatened with a forced bailout of these investors. This is the Wall Street bailout writ small, but with (the investors hope/d) a guarantee that any misstep by them would be covered by whatever rate increases they chose to request. Now we are informed that the latest rate increase would provide them with more than 11% rate of return.

My impression is that there will be a full-scale revolt if this rate increase is approved, and the focus will be not only Goodman but also the governing body that is responsible for approving such an outrageous rate increase.

I urge you to weigh very carefully the meaning of any rate increase, given the questionable history of the investors' gamble, and to deny the requested rate increase.

Attention: Representative

I am an Eagle Crest Ranch resident family of four and need your HELP to stop the BAILOUT of Goodman Water Company. They are charging outrageous and non ethical water rates to its costumers for the bad business decision to over building our community Water System. They want to make up for what they claim to be lost profits on building a system that was designed to provide water for 1,800 homes when the whole community is only slated for a little over 900 homes. DENY THE RATE INCREASE.

Two years ago Goodman had its first major rate increase which doubled my water bill. I was paying approximant \$45 a month and it went to what I am currently paying, \$100 a month. The new projected rate increase would put my bill to \$150 or more. This is an average water consumption rate according to what they bill water usage at. It is however, 400% more than what adjacent water companies are charging their residents (i.e. Oro Valley Water, Largo Del Oro Water and Tucson Metro). Also the sewer company bills off a percentage of the water usage rate, which currently is \$20 on top of the water bill. You can't turn on water without having somewhere for it to go. So, if the water rate doubles so will that. Which means I will be paying close to \$200 or better a month to lets just say flush my toilets, wash some clothes or give my kids a bath. Doesn't that seem absurd to you? I thought so!

Now here are some relative points. Eagle Crest Ranch is the only customers of Goodman Water Company. They also have a State sanctioned Monopoly for the area of water rights. They are abusing the system because of this. Goodman Water Company is a for profit company that wants to net over \$200,000 in profit next year on our current average revenue of \$560,000. That's correct; net profit is 35% of our revenue from only about 650 homes. If we take legal proceedings in court, Goodman can pass the cost directly to the costumers, which leaves us stuck. This is why we need your help to STOP the rate increase. Goodman made over \$30,000 in profit last year during the recession, but they want more. What, a water company is making profit but the state and cities are laying off public safety and schools having major cuts. What is wrong with this picture?

Eagle Crest Ranch is a great community but with the economic down turn over the past couple of years, like everywhere else, left fallen housing prices. This means we are caught in our home and force to be held hostage by Goodman having the monopoly over the water. This I refuse to be held hostage by Goodman. I fear if the rates of water keep increasing, to this magnitude, the less chance we have to sell if needed or others to buy. Eagle Crest Ranch may become another ghost town because of a tyrant. Please DENY THE RATE INCREASE!

Docket No. W-02500A-10-0382

Arizona Corporation Commission:

I am writing in regards to the recent rate increase requested by Goodman Water Company. I am a resident in Eagle Crest Ranch and a customer of Goodman Water Company of necessity as they have the monopoly here in Eagle Crest Ranch. I thought monopolies were unlawful but somehow they have been granted the monopoly for water utilities here.

I am on a fixed income and find it very distressing to consider ANOTHER rate increase after the Goodman Water Company just had one in 2007. I do not feel I should have to bail out Goodman Water Company for their over spending and over building. They have put in a second water storage tank that I understand brings their capacity to approximately 1800 homes when there are only approximately 950 sites in this development that could be built, that's assuming EVERY LOT is built and developed, which it is not. I am strongly opposed to Goodman Water Company passing their expenses directly onto me. They made a profit of some \$30,000.00 this last year; I find their requested rate increase extreme and unjustified. I would request that you deny this rate increase request. Thank you.

COMPLAINT AGAINST GOODMAN WATER REQUEST FOR WATER RATE INCREASE WHICH IS GROSSLY UNFAIR AND IRRESPONSIBLE ON THEIR PART.

It is imperative that this UNFAIR RATE INCREASE request by Goodman Water be DENIED.

Many Residents in Eagle Crest are retired and living on Social Security as we are and already are hurting due to the present economy.

Eagle Crest Residents would be paying greater than 400% more for their water then adjacent communities (SaddleBrooke & Catalina) if this increase is approved.

Goodman Water Company is a State Sanctioned Monopoly.

Goodman Water is wanting to net over \$200,000 in profit next year on a current average revenue of \$560,000. Net profit would be 35% of revenue.

Goodman Water overbuilt the present water tank/system in anticipation of expanding their construction to adjacent areas over the years and wants those of us living in Eagle Crest to pay for their poor business practices.

DR Horton, the builder at Eagle Crest Ranch was/is part owner of Goodman Water Company. The total decision to use Goodman Water Company was/is a CONFLICT OF INTERESTS.

RE: W-02500A-10-0382

To Whom It May Concern:

I am writing in regard to the water issues concerning Eagle Crest Ranch and Goodman Water Company, our sanctioned water monopoly.

Goodman wants to obtain another rate increase after the one they imposed three years earlier.

I demand that this rate increase be denied, because without this denial, we at Eagle Crest will have to pay a rate increase that is 400% more than any of our surrounding communities. The current rate I pay is far above and beyond these other communities now, but it is going to add even more of a financial burden for me since I'm on Social Security. It's hard enough making ends meet without this rate increase being permitted.

Goodman even wants us to pay their legal costs for contesting this matter by even adding that to our water bill as well.

Tucson water bills average \$18.22 a month, Catalina averages \$27.14, and SaddleBrooke rates average \$23.20. Our average bill currently is about \$64.00, and with their proposed increase, I will be paying over \$100.00. We have friends with a pool that pay only \$20.00 a month, so our charges are most unreasonable. The state does not seem to care about this, and that law needs to be changed so that we homeowners can be protected from such greed.

Had we known about this when we purchased our home, we would have considered a different community. The other thing is that it may be harder to sell because people will not want to pay these rates, and that will affect our home values.

Thank you,

This Goodman Water proposed rate increase to 53% is an added burden on the residents of Eagle Crest Community of Tucson Arizona.

Goodman Water already got a 100% rate increase three years ago. I think it is a injustice to the residents to have to pay a higher water bill in this economy where most residents are doing what they can to stay ahead of their current debts. Many owners are under water on their mortgages and this increase may be the final straw in them losing their homes.

I am asking the commission to refuse this attempt to raise our water bill 53%.

I currently pay for 5400 gallons of water \$72.00 a month. With the proposed rate increase of 53% I will be paying \$110.00 a month for the same water.

Our neighbors around our community pay \$25.00 a month for 6000 gallons per month. What a outrage this is.

Please consider the shape of the economy and the added financial stress this will put on the residents of this community. Please vote no on this rate increase.

Thank you

Concerned resident of Eagle Crest Ranch

Goodman Water Company

My wife and I retired and moved to Arizona just before the economic downturn. Since then we have been living on a fixed income, including Social Security, while our nest egg dwindled and our home value declined. It has been a nightmare that we saved our whole life for and we are at an age where we don't have the time to recover.

Goodman Water is proposing a 53% rate increase in fees and water rates that would harmfully impact our living standard and our property value. I am writing this letter to demand that this rate increase be denied. Goodman Water is asking for 35% net profits on the backs of families struggling to make ends meet. We will be paying 400% higher for our water than the surrounding communities of Saddlebrooke and Catalina.

Goodman Water made a bad business decision to build the water system with twice the capacity as needed for this tract. This excess capacity should be taken out of the Fair Value Rate Base. They are the only water company in the greater Tucson area that does not charge Impact Fees. This must be required for all future homes built.

How can the little people fight this monopoly? We are their only customer and they can hire all the attorneys they need and just pass the cost to us. I urge you to make the right decision and deny this rate increase.

Public Comment by: George Freese

10/12/2010

This request for a rate increase is totally ridiculous, completely out of order in these economic times, and certainly not considerate for a reasonable rate of return on investment. This monopoly is attempting to hold this community hostage to the company demands outside of fair play. My water bill will increase from an average of about \$65.00 to nearly \$110.00; an increase of right at 50%. This outrageous cost is on the order of 400% more than adjacent communities.

I charge that Goodman Water Company is trying to get a free ride and "bail-out" for over building its facilities well beyond the projected full build-out of Eagle Crest Ranch. This community was planned for 920 single family houses; the Goodman plant is capable of serving over 1800 units.

Any reasonable person could easily understand why this unreasonable rate increase should not be permitted.

As a homeowner in the Eagle Crest Ranch Community (ECR), I am opposed to the Goodman Water Company request for a rate increase and would like the Arizona Corporation Commission to reject their request.

I base my reasoning on the following:

From the start of Goodman Water's association with DR Horton, there appears to be a very contrived, conniving way of conducting business---

- by no mention of DR Horton, the builder, being part owner of the Water Co. in 2005 when my husband and I bought our home in this development and the fact that DR Horton made no mention that the cost of the water system was included in the cost of the house.
- by overbuilding the infrastructure of Eagle Crest Ranch Community to supply 1,800 homes and we only have 650 homes built. We are their **ONLY customer**.
- by not providing water at a fair rate, not one that is 500% higher than neighboring communities' water rates. This is **UNFAIR!!**

I worked for a major corporation, Eastman Kodak Company for over 30 years and have never seen any **BAIL OUT** rewards for bad business decisions made by different divisions within the corporate structure. As a matter of fact, monetary compensation should be provided to the homeowners of this neighborhood for putting up with this.

My husband and I worked hard for our money and the ability to retire in Arizona. After seeing how the ACC sided with the water company in 2007, Decision 69404, I was extremely discouraged and wondered if we made the right retirement decision. My husband and I went to Phoenix for the final verdict in 2007 and when the Chairman for the ACC said that since the Goodman Water Company didn't have a rate increase since 1988 and deserved it, I wanted to vomit. This Chairperson couldn't have read the background information because if he had, he would have known that Goodman did not have any homeowners in the community until 2001 and therefore, no customers. I wonder if someone's hands were getting greased for a positive decision.

For a utility service be able to take advantage of a little guy "us" (ECR community) and have the ACC in 2007 support their quest to overcharge us is disheartening. Then the gall for Goodman take their overpriced legal fees and charge us back for them when we can't afford that type of legal representation ourselves is **UNFAIR!!!!!!!!!!!!!!** It's like adding salt to an open wound.

I'm sorry if I'm too negative but based on what has transpired, something is terribly wrong with this scenario and I hope that you can take a look at the overall concerns of every homeowner in this community.

Arizona Corporation Commission:

RE: Docket No. W-02500A-10-0382

This letter is written due to a concern about the recent request of the Goodman Water Co. to once again increase the water rate by 53% to the residents of Eagle Crest Ranch subdivision, Tucson, AZ if passed. Two years ago Goodman Water Co. requested and was approved to double our water rate. My water was \$32 per month now it is \$62 per month. If you approve this request for 6,000 gallons of water, a resident will be paying \$106.00 per month. I can pay five months of Southwest Gas during the spring and summer months for this amount. While our country is going through a recession, we are told to tighten our belts. Many families are struggling and many are out of work but Goodman Water Co. is looking to take advantage of the residents of Eagle Crest for their own profit. We have been told by the Eagle Crest residents' committee that Goodman Water profited \$30,000 last year and is looking to make a profit of \$200,000 this coming year from the people of Eagle Crest.

Water rates for 6,000 gallons of water for the surrounding area residents are as follows:

Tucson	\$18.22
Catalina	\$27.14
Saddlebrook	\$23.20
Goodman	\$69.82 presently
Goodman	\$106.00 if you approve this increase.

If I was presently trying to sell my home and a potential buyer asked how much our monthly water bill was and I told them \$106.00 monthly, do you think they would buy my house or go looking elsewhere.

I petition you to vote "NO" on Goodman's water request.

Sincerely,

Joan Dixon

This letter is to address the proposed water rate increase by Hadron Water Co. in the Eagle Crest Ranch Sub-Division.

In 2007, the members of the Az. Corp. Commission voted to allow an increase in our water rates. This also resulted for Eagle Crest homeowners to pay \$42.50 to \$105.50 for the water meter.

This is not a one-time fee, but is added on to homeowner's water usage bill!

Now Hadron Water, a monopoly, is asking for another 53% increase!

We have lost many wonderful families in our area due to foreclosures. Most families require both parents to work, just to make ends meet. We know of a few who hold down 3 jobs between 2 people.

The retirees who live on a set income from Social Security are facing another year without a Cost of Living increase.

How can this rate increase be justified?!!

Adjourning Communities (Saddlebrook and Catalina) pay a mere \$20⁰⁰/mo. for water; not the outrageous rates the Gudman Water monopoly is asking you to approve.

As you can see by the enclosed sheet, even the monthly water-meter charge increase is substantial!

Please do not let the families in Eagle Crest Ranch Sub-division fall victim to Gudman Water Co. greed again. I ask you to be FAIR and DENY this increase.

Sincerely,
Linda M. Deas

Re: Goodman Water Co. proposed rate increase

Docket Number: W-02500A-10-0382

Attention: Sandra Kennedy

I attended a meeting of concerned residence living in Eagle Crest Ranch. Most residents are retired or young families. A rate increase by Goodman Water Co., of this magnitude, would affect the quality of life for all concerned.

Eagle Crest residents are the only customers of Goodman Water Company. We should not be held responsible for bad business decisions, made by Goodman, to over build the water system.

Home values in our neighborhood have dropped due to the recession. Water rates will also affect our values. Eagle Crest could become a "ghost town"!!!

Do not approve this rate increase request! Hookup fees for all future on-site homes should be implemented.

Thank you,

Re: Docket Number W-02500A-10-0382, Goodman Water Rate Increase

To Whom It May Concern:

I am writing with regard to the above docket number and as a homeowner at Eagle Crest Ranch subdivision. I and all of my neighbors appear to agree that the proposed rate increase is exorbitant. As it is we pay a base rate of \$42.20 per month which is far in excess of what the surrounding water utilities are charging their customers. This is a community of everyday working class individuals and a handful of retirees. The increase would be a great burden on the families here.

I do believe there needs to be an investigation of this water company as to their operations and if they are failing to make a profit with 600 homes here at Eagle Crest as their customers, then there is something seriously wrong with their bookkeeping. Remember, their base rate per house is \$42.20, then the water usage is computed making our bills here outrageously high. As an example, I was told that the \$115.00 deposit when initially starting my account with Goodman water would be refunded plus 6% in a year. A month prior to the year, I called the people who are now handling their billing. A woman said that she had no record of my deposit and asked if I had a record of it. Of course I did and asked if she wanted me to send her a copy. She said that was o.k, and I would see the deduction on my next bill. She also said, "to tell you the truth, when we took over Goodman Water company billing the

bookkeeping was a mess". What does that tell you?

The Arizona Corporation Commission and the State Attorney General needs to investigate the inner workings of this company.

I request that this increase be denied.

Sincerely,

Docket No: W-02500A-10-0382

Arizona Corporation Commission,

I am a concerned resident of Eagle Crest Ranch in Pinal County. Goodman Water (our only water option) has proposed yet another rate increase. The last rate increase was approved in 2007 which caused our bill to almost **TRIPLE**. Once again, they are asking for another increase, this time an increase of over **50%**. Our development is pretty much the only people Goodman Water services (if you can call it that). The average water bill in our development, not including sewage, is currently \$66.73 and they are proposing that it is raised to \$102.19. This is for water, a necessity and we are left without another option. If passed, Saddlebrooke, a retirement community just east of us, and Catalina, the community just south of us, will be paying **5 TIMES** less than what we are paying for water. This proposal should not be passed first because there are many flaws in it and second we as citizens cannot afford these changes during times of recession. The following areas are a few of those flaws.

#1- Goodman Water based their proposal off 2009 figures. These figures are skewed as there were many houses that sat vacant because of foreclosures and now they are trying to pass those costs onto us.

#2-Goodman Water is asking for enough money to **DOUBLE** their current office and administrative costs because of raises. Wow, I would like a nice raise in a recession. How is this fair?

#3- Goodman Water choose to change their contractual services to Smyth Industries giving us the option to pay by credit card online. If we knew that this would cause our water bill to increase, we would have been against the change and asked them not to make it.

On top of everything else, Goodman Water, had us, the residents, test their water so that they would have the data they needed to file this proposal. They are hiding costs in their proposal and not being accurate at telling the whole story. Just a couple of months ago I talked to a woman at the state offices who works with these proposals, and asked how we as residents could go about lowering our costs. She told me that once the proposal was approved that there was nothing we could do about it. If this is passed the only people who can ask for a review is the water company and they will not ask for a review unless they want to raise our costs again. This leaves us with no other option.

If this proposal is passed, we will see more empty houses in our development because residents will not be able to afford their needed utilities and those costs will be passed onto us. The very high cost of water has and will continue to be a factor in the decline of the values of our homes. Goodman Water is a monopoly and we do not have another option for water. Asking us to pay **5 TIMES** the amount that our neighbors do is crooked and I think that Goodman Water should be evaluated. I am asking you to please do what you can to see that this proposal is **NOT** passed.

Thank you for your time.

OV council looks at water rate increase

AVERAGE INCREASE \$1.60 A MONTH

The Oro Valley Town Council plans to discuss a proposal to increase water rates on Wednesday night.

The proposal from town water director Philip Saletta, on tap for discussion at the Oct. 6 meeting, asks the council to approve a 4.1 percent rate increase for residential customers. That increase is based on the water usage of the average Oro Valley household, about 8,000 gallons per month. Most residential customers would pay an additional \$1.60 per month, according to a water utility analysis.

Base rates would remain the same under the proposal. The changes would impact the monthly groundwater preservation fees. Currently, residential customers pay 75 cents in groundwater preservation fees per 1,000 gallons of water used.

Also proposed is a \$5 increase to the service establishment fee. The change would bring the fee to \$35 to set up service for residential

FY 1997	14.1 percent increase
FY 1998	3.7 percent increase
FY 1999	8.5 percent increase
FY 2000	3.8 percent increase
FY 2001	4.5 percent increase
FY 2002	5.5 percent increase
FY 2003	6.5 percent increase
FY 2004	8.4 percent increase
FY 2005	3 percent increase
FY 2006	no increase

customers.

The Oro Valley Water Utility operates as an enterprise fund, meaning it doesn't receive any money the town's general fund, the budget area that supports most governmental operations. Money collected from water customers makes up the bulk of the water utility budget.

The council has approved rate increases every year except for fiscal 2006 since the water utility was instituted in 1996.

Goodman Water Company Rate Increase
Goodman Water Company
Docket# W-02500A-10-0382

Aside from the emotional issues (fixed income, large families, no work, social security and/or disability, first homes, dreams etc). Goodman Water Company's request for a judicious rate increase is just WRONG!

Goodman Company sent out a letter dated September 28th, which we received Oct 1, inviting its customers to a meeting October 20th to **"explain the circumstances surrounding the application for a rate increase filed by the company to the Arizona Corporation Commission, and to respond to questions customers may have regarding the rate increase request and related matters"**. Goodman did not mention in the letter that the increase would total upwards from 100.00 a month minimum per household. Goodman knew and knows that the situation would be settled on the 18th of Oct. and Oct. 20 would be too late for any of us to share our grievances and/or take effective action to have the rate increase denied. This would leave us helpless and without choices for our own well being. This malicious attempt to prey on a community for their Company's mismanagement and bungled business plans is WRONG!

It is non-professional and unjustified for Goodman water to hold Eagle Crest Ranch community as hostage in their attempt to clear their mistakes and produce huge profits for themselves by gouging the customer with over-the-top water rates. Customers who through our monthly payments now, keep this thriving company, who would like everyone to think it is just a little ol' desert company, alive! I am reminded during 9/11 when a Starbucks shop hiked up their water prices to 10.00 and more a small bottle, just because they could. But even they were prosecuted and many lost their jobs because it was WRONG!

The Eagle Crest Ranch community should not be held responsible or accountable for the greed, monumental business errors, questionable business associates, embarrassing failures, and cunning trickery of Goodman Water Company. It is just WRONG!

There must be an elected official, law maker, politician, who can stand with the

Docket# W-02500A-10-0382

people they serve and see that we need a Champion now. The Goodman Water Company vs. it's Customers is becoming a saga that will have profound consequences for communities, state and country, no matter which way it goes. To say you work on behalf of us, the people, and do not DENY this unreasonable, undue request by Goodman Water Company is just WRONG!

PLEASE DENY GOODMAN WATER COMPANY'S REQUEST FOR A RATE INCREASE!

Dear Arizona Corporation Commission

I am a resident of Eagle Crest Ranch and I demand that you to deny the request for an increase from Goodman Water. This is more than unfair, this is a disgrace.

Having water service to my house is not only a right but a necessity. A utility company should not be able to make EXCESSIVE profits on something a customer cannot do without. Goodman Water is a monopoly and Eagle Crest Ranch is it's only customer. This should not be considered a business but a service. They should not be allowed to make a huge profit for providing a necessary service. By allowing Goodman Water to operate this way you are giving them unlimited revenue at our expense. There is no reason Goodman Water cannot provide this service to us at a rate similar to most other communities in our area other than greed. And if they cannot then they should be forced to give up the water rights so that we can have another water company come in and provide it for us.

I work in construction and there is such a thing as an "industry standard". Water service to X number of homes should cost approximately X number of dollars. Goodman Water is coming in at well over the industry standard and should be held accountable not rewarded for spending more than was necessary.

They put in water system capable of servicing 1800 homes plus commercial. In effect, they overbuilt so that we as homeowners would have to finance their future development. Even at final build out we are paying for over two times what is necessary. Our water rates should be based on what was necessary and not based on what Goodman put in now to save themselves money down the road. When figuring the Fair Value Rate Base, the excess spent should be removed from the equation and it should be based on what is needed to supply our community. Why should they be guaranteed a profit? No business should be structured as a guaranteed investment. And one where the more you invest, necessary or not, the more money you are guaranteed to make is ridiculous.

We as buyers were never told that Goodman Water had a monopoly on the water rights. We were never told that DR Horton was part owner of the water company. How is it legal for the builder and developer to be in business with the water company? A builder is there to make money. That is a conflict of interest. Another industry standard is hook up fees. This is a way to protect the future homeowners against excessive rates. They were never charged and still aren't because the builders don't want to raise the price of the house. This should be charged on all future lots to offset the cost of construction.

The high rates definitely have an impact on my family's lives. I expect my water bill to go up to approximately \$140.00 a month. This is the second highest utility bill I have. This increase will mean that I have \$60.00 a month less to feed my family, pay for gas to get to and from work, both of which are necessary. This will also have an effect on the local economy. For every household in Eagle Crest, that will be that much less we have

to spend out in the community. In effect, taking money that would be going to the state in the form of sales tax and putting directly into the pocket of Goodman Water.

My home is my biggest investment in my future. The high water rates will have a definite impact on the future sale of my home. Why would anyone want to buy a house where their monthly water bill rivals their property taxes. We in this community will not be able to sell our houses for comparable rates because of this. This effects not only my current quality of life but that of my retirement.

I demand that you deny this request. In addition, the commission needs to completely re-evaluate Goodman Water and their business practices. They are not operating in the interest of their customers, only their own profits.

Sincerely,
Adele Smith

Talking Points

1. Eagle Crest Ranch could pay greater than 400% more for their water than adjacent communities (Catalina & SaddleBrooke), if this proposed increase is approved.
2. Eagle Crest Ranch residents are the only customers of Goodman Water Company.
3. Goodman Water Company is a State sanctioned Monopoly.
4. Goodman Water Company wants to net over \$200,000 in profit next year on our current average revenue of \$560,000.
(That's correct; net profit is 35% of revenue)
5. Goodman Water Company can hire any lawyer they want and pass the costs DIRECTLY to the customers.
6. Goodman Water Company made over \$30,000 profit last year, during the recession, but they want more. Much more.
(The state has approved this increase in the past.)
