REVISED MAYES PROPOSED AMENDMENT 1

AZ CORP COMMISSION  
DOCKET CONTROL

TIME/DATE PREPARED: October 18, 2010

COMPANY: Arizona Public Service Company

AGENDA ITEM NO. 18

DOCKET NO. E-01345A-10-0113

OPEN MEETING DATE: 10-19-10

Page 5, line 26, INSERT New Finding of Fact: “While we will approve this solar supply agreement today, we are concerned about allowing a single project to consume such a large portion of APS’ non-residential renewable DE requirements under the REST. We do not wish to see other worthy commercial renewable energy projects crowded out by a single large distributed energy system. We will therefore require APS to notify the Commission, as part all future RES Implementation Plans, whether the inclusion of the Freeport-McMoRan Bagdad Inc. project in the Company’s commercial DE program has precluded any other non-residential renewable DE system from receiving utility incentives because APS is already in compliance with its non-residential renewable DE requirements as a result of having signed the Solar Agreement with Freeport-McMoRan Bagdad Inc. If APS finds that commercial DE projects will be or were precluded, we will also require the Company to request from the Commission additional funding for the commercial systems that would otherwise be precluded.”

Page 7, line 5, INSERT New Ordering Paragraph: “IT IS FURTHER ORDERED THAT Arizona Public Service shall notify the as part all future RES Implementation Plans, whether the inclusion of the Freeport-McMoRan Bagdad Inc. project in the Company’s commercial DE program has precluded any other non-residential renewable DE system from receiving utility incentives because APS is already in compliance with its non-residential renewable DE requirements as a result of having signed the Solar Agreement with Freeport-McMoRan Bagdad Inc. If APS finds that commercial DE projects will be or were precluded, we will also require the Company to request from the Commission additional funding for the commercial systems that would otherwise be precluded.”

**Make all conforming changes.**
