Dear Commissioners:

I am writing to you concerning the pending merger of Qwest and CenturyLink. Endocrinology Associates, P.A. have/has been an Integra Telecom customer since October 29, 2010, and are very pleased with the consistent level of service that we have been receiving from Integra. It is critical to our business that we continue to receive reliable telecommunications and internet access services.

It is our understanding that CenturyLink is the first rural carrier to acquire a regional Bell Operating Company, and that it has little to no experience serving major urban areas like Phoenix, AZ. We are concerned that the service of all residents and businesses in our state which rely directly or indirectly on Qwest's network may be adversely affected by this merger. We urge you, in reviewing this merger, to ensure that service quality and local service competition are not harmed by the transaction. The merged company must have the appropriate incentives and technical and operational resources to continue to serve all of its customers whether wholesale or retail at the same levels Qwest does today.

Our community and our businesses depend upon a common telecommunications infrastructure and we are counting on the FCC and the state commission to prevent any disruptions to it as a result of this transaction.

Sincerely

Meredith Moad

Dear Commissioners:

I am writing concerning the pending merger of Qwest and CenturyLink. **DREAM CENTER** have/has been an Integra Telecom customer since 2006, and are pleased with the consistent level of service we receive from Integra. It is critical to our business to have reliable telecommunications and internet access services. There are two primary concerns regarding the merger.

First, Qwest has not invested sufficiently in its Arizona network. Although we are a customer of Integra's, we understand that Integra serves us in part over last-mile facilities it leases from Qwest. Qwest needs to invest more in its network to ensure that Arizona is not subject to outages and that its distribution plant is adequately maintained. A well-maintained state-of-the-art telecommunications infrastructure is critical for our business to remain competitive and attract new businesses to the state. If Qwest were to make significant network investments, businesses such as ours could have the same robust telecom service that Qwest customers in other states currently enjoy.

Second, it is our understanding that CenturyLink is the first rural carrier to acquire a regional Bell Operating Company, and that it has little experience serving major urban areas like Phoenix. We are concerned that the service of all residents and businesses in our state which rely on Qwest's network may be adversely affected by this merger. We urge you, in reviewing this merger, to ensure that service quality and local service competition are not harmed by this transaction. The merged company must have the appropriate incentives and operational resources to serve all its customers whether wholesale or retail at the same levels Qwest does today.

Our community and our businesses depend upon a common telecommunications infrastructure and we are counting on the FCC and the state commission to insist upon merger conditions that require Qwest and its successor to invest adequately in the Arizona network.

Sincerely

Dear Commissioners:

I am writing concerning the pending merger of Qwest and CenturyLink. Brandenburg Pool have/has been an Integra Telecom customer since 2009, and are pleased with the consistent level of service we receive from Integra. It is critical to our business to have reliable telecommunications and internet access services.

It is our understanding that CenturyLink is the first rural carrier to acquire a regional Bell Operating Company, and that it has little experience serving major urban areas like Phoenix. We are concerned that the service of all residents and businesses in our state which rely on Qwest's network may be adversely affected by this merger. We urge you, in reviewing this merger, to ensure that service quality and local service competition are not harmed by this transaction. The merged company must have the appropriate incentives and operational resources to serve all its customers whether wholesale or retail at the same levels Qwest does today.

Our community and our businesses depend upon a common telecommunications infrastructure and we are counting on the FCC and the state commission to insist upon merger conditions that require Qwest and its successor to invest adequately in the Arizona network.

Sincerely

Dear Commissioners:

I am writing to you concerning the pending merger of Qwest and CenturyLink. Pacific Communications LLC has been an Integra Telecom customer since May 2006 and is very pleased with the consistent level of service that we have been receiving from Integra. It is critical to our business that we continue to receive reliable telecommunications and Internet access services.

It is our understanding that CenturyLink is the first rural carrier to acquire a regional Bell Operating Company, and that it has little to no experience serving major urban areas like Phoenix, AZ. We are concerned that this merger may adversely affect the service of all residents and businesses in our state, which rely directly or indirectly on Qwest's network. We urge you, in reviewing this merger, to ensure that service quality and local service competition are not harmed by the transaction. The merged company must have the appropriate incentives and technical and operational resources to continue to serve all of its customers whether wholesale or retail at the same levels Qwest does today.

Our community and our businesses depend upon a common telecommunications infrastructure and we are counting on the FCC and the state commission to prevent any disruptions to it as a result of this transaction.

Sincerely,
