INSERT

“We agree with Staff’s reasoning, however, we believe that APS’ PBI reservation process can be strengthened and should be done so sooner rather than later. Therefore, we believe APS should institute a reservation fee or security deposit proposal for its non-residential PBI program. In addition, we believe that APS should require all applications for its non-residential PBI program to include an executed contract between the customer and solar installer/developer and technical specifications for the project.”
