OPEN MEETING DATES:

November 22-23, 2010

AGENDA ITEM: U-27

Page 16, line 16

INSERT new Paragraphs:

“We agree with Staff that the long waiting lines for residential and non-residential distributed systems require modification and reprioritization of APS’ 2011 implementation budget. Given the magnitude of the backlog, we will require APS to reallocate \$5 million of its “marketing and outreach” budget, and the entire “research, development, commercialization & integration” budget not allocated to Flagstaff Solar Integration study approved last year towards increasing its budget for residential distributed generation. These adjustments will enable APS to infuse approximately \$6 million towards working through its backlog in residential incentive applications, and importantly, will not increase the REST surcharge to APS ratepayers.”

MAKE ALL CONFORMING CHANGES, INCLUDING CORRESPONDING ORDERING PARAGRAPHS.
