

MAYES PROPOSED AMENDMENT 2

TIME/DATE PREPARED: December 14, 2010

COMPANY: Arizona Public Service Company

AGENDA ITEM NO. U-17

DOCKET NO. E-01345A-10-0219

OPEN MEETING DATE: Dec. 14-15, 2010

Page 22, Line 3.5, INSERT:

“The Commission believes that APS should develop policies to better coordinate and integrate renewable and energy efficiency programs. While the Company’s Community Power Project in Flagstaff is examining the impacts of high levels of distributed generation on a common feeder, the program does not address energy efficiency or integrate efficiency programs.

We believe the Company should develop an integrated renewables and energy efficiency pilot program focused on a bounded territory, whether a feeder, city block or otherwise. Such a program should build on APS’ Community Power Project but fully integrate energy efficiency programs into the proposal. The Company should file such a program in its 2012 implementation plans or no later than July 1, 2011.”

Page 23, Line 11.5, INSERT NEW ORDERING PARAGRAPH:

“IT IS FURTHER ORDERED THAT APS shall develop an integrated renewables and energy efficiency pilot program, focused on a bounded territory, whether a feeder, city block or otherwise. Such a program shall build on APS’ Community Power Project but fully integrate energy efficiency programs into the proposal. The Company shall file such a program in its 2012 implementation plans or no later than July 1, 2011.”
