Just a few years ago, my water rate was raised- as a single person, my monthly bill went from \$28 to \$75!! I began a regimen of very strict water conservation and was able to lower my monthly bill to \$55. There is NO MORE I can do to conserve water any further. I feel that the planned rate increase is only an attempt by a private business to make up for business losses due to their own business decisions- & I don't think we owners should be the ones to bail them out! If I as a single owner have to pay that much, what are the families being forced to pay? In this tough economy, I feel that Goodman's actions are totally out of line! Especially since they in essence have a monopoly at Eagle Crest!
