Commissioner Jim Irvin
Arizona Corporation Commission
1200 W. Washington St.
Phoenix, AZ 85007

Dear Commissioner Irvin:

On behalf of the over 11,000 members of the Grand Canyon (Arizona) Chapter of the Sierra Club I would like to thank you, your fellow commissioners and the staff of the Corporation Commission for the Rules on Electric Competition and urge their formal adoption on Wednesday. The Sierra Club asked for two important things in the rules: a solar portfolio standard and truth in advertising. In R14-2-1609 and R14-2-1618 the Commission delivered both in a way that brings the benefits of competition and informed consumer choice to the people of Arizona.

We did not get everything we wanted. We still believe that the costs of nuclear decommissioning, and now nuclear fuel disposal, should have been better addressed within 1607 rather than 1608. On the whole, however, this is a very positive rule. Again, we thank you.

Sincerely,

Chris Gehlker
Energy and Urbanism Chair
