Renz Jennings, Commissioner
Arizona Corporation Commission
1200 West Washington
Phoenix, Arizona 85007

Dear Commissioner Jennings:

Arizonans for Electric Choice and Competition (AECC) is submitting an amendment to the proposed settlement with Arizona Public Service and Tucson Electric Power that addresses the concerns of business and allows real competition to begin on January 1, 1999. Since competitive electricity prices are highly desirable to maintain reasonable operating costs, World Resources Company supports this amendment, and therefore sincerely requests your endorsement of it.

I am sure that the Arizona Corporation Commission is interested in considering the best interests of all parties involved. I genuinely believe that AECC's amendment will address these concerns and lower electricity costs through competition.

Thank you for your endorsement of this pro-business/pro-consumer/pro-Arizona amendment.

Sincerely,
WORLD RESOURCES COMPANY

Harry A. Jupin
