DELETE Finding of Fact No. 95 (lines 1 – 24) and INSERT the following new Finding of Fact:

“During the November 22 and 23, 2010 Open Meeting, Eran Mahrer expressed his view on behalf of APS that studies of the water-energy nexus and of increasing the renewable energy standard in Arizona are “integral to the integrated resource planning” process. We agree with Mr. Mahrer’s assessment. These two studies are more relevant to APS’ integrated resource planning process than to its 2011 Renewable Implementation Plan. APS is welcome to address these issues when it files its integrated resource plan with the Commission later this year. If APS intends to seek cost-recovery for commissioning studies on these issues, it should first inform the Commission the amount and the manner in which APS proposes to seek cost recovery.”
