DELETE Finding of Fact No. 35 and INSERT Finding of Fact:

“Although APS included the Small Generator Standard Offer (“SGSO”) Program in its Feed-In Tariff Program, we do not agree that the SGSO Program is a true feed-in tariff. A feed-in tariff is typically defined as “an obligation on an electric distribution utility to purchase electricity from an eligible renewable energy seller at specified prices for a specific duration.” Since the winning projects selected under the SGSO Program are the lowest bidders in a very competitive Request for Proposals bid, the SGSO fails to meet the feed-in tariff definition. We therefore do not object to the funding of the APS SGSO Program.”
