10. We believe that in the interest of economic efficiency, transaction processing methods used by market participants should be standardized and coordinated statewide, and that Commission Staff, market participants, and the Residential Utility Consumer Office should participate in a process to achieve the goal of consistent statewide application of transaction processing methods by the time that the Arizona market is open to full retail electric competition. To achieve this goal, a Process Standardization Working Group, coordinated by the Director, Utilities Division or Director's designee, should be formed; and the Process Standardization Working Group should, as soon as practicable, submit a Report to the Commission containing Standardized Operating Procedures to be used by all market participants. The Report should also contain any additional Staff recommendations based on the Process Standardization Working Group's review of transaction processing methods.

6. Formation of a Process Standardization Working Group and submission of a Report as outlined in Findings of Fact No. 9 above will serve the public interest.

Page 6, line 8, **INSERT:**

IT IS FURTHER ORDERED that within thirty days of the effective date of this Order, a Process Standardization Working Group shall be formed, which shall consist of Commission Staff, market participants, and the Residential Utility Consumer Office; and shall be coordinated by the Director, Utilities Division or the Director's designee.

IT IS FURTHER ORDERED that the Process Standardization Working Group shall meet as necessary to review transaction processing methods used by market participants, for the purpose of standardizing and coordinating those methods.

IT IS FURTHER ORDERED that on or before June 15, 2000, the Director, Utilities Division, or the Director's designee, shall file with the Commission a Process Standardization Working Group Report, which shall contain Standardized Operating Procedures to be used by all market participants. The Report may also contain additional Staff recommendations based on the Process Standardization Working Group's review of transaction processing methods.
