NEWMAN PROPOSED AMENDMENT NO. 1

0000123664

TIME/DATE PREPARED: March 11, 2011

COMPANY: Sulphur Springs Valley Electric Cooperative, Inc. AGENDA ITEM NO. 6

DOCKET NO(S). E-01575A-10-0311

OPEN MEETING DATE: 03/16/11

INSERT New Finding of Fact No. 23, Page 5, Line 5:

23. Although we approve SSVEC's financing request as discussed herein, we are concerned that future continued reliance by SSVEC on non-distributed sources of generation could increase infrastructure costs related to transmission. We believe that there may be benefits to both SSVEC and its ratepayers to consider alternatives, including more distributed energy projects and aggregated net metering (ANM) projects in SSVEC's service territory, where there appears to be public strong support for these kinds of projects. We are also mindful that in its January 2011 NARUC report entitled, *Exploring Aggregated Net Metering in Arizona*, Staff recommended that the Commission should move forward with a pilot program for ANM. An ANM pilot program could provide the Commission with helpful information concerning the implementation of ANM projects. Therefore, we shall require SSVEC to work with the communities and interested members of the public in its service territory to develop proposals for an ANM pilot program and file its proposals by August 1, 2011.

INSERT New Ordering Paragraph, Page 6, Line 13:

IT IS FURTHER ORDERED that Sulphur Springs Valley Electric Cooperative, Inc. shall work with communities and interested members of the public in its service territory to develop proposals for Commission consideration for an Aggregated Net Metering Pilot Project of a size greater than 500 kW but no larger than 1.5 MW, and file the proposals by August 1, 2011.

Make all conforming changes and renumber findings accordingly
