The Tusayan Water Development Association through its counsel hereby submits its response to the Staff's First Set of Data Requests:

STF - 1.1 Please state the current rates being charged by customer class.

ANSWER: There are two groups of customers. One group is connected to Hydro Resources, Inc.'s water delivery system. Hydro's water rate charged to the TWDA at this time is \$24.50 per 1,000 gallons. TWDA passes Hydro's charge on to the customer and adds .0004 cents per gallon to cover TWDA's administrative and operating costs.

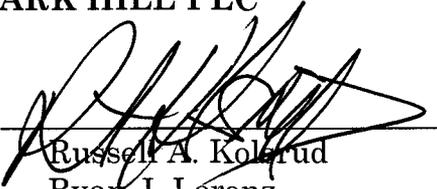

The other customer group is connected to Anasazi Water Company, LLC's water delivery system. Anasazi's water rate charged to TWDA at this time is \$55 per 1,000 gallons. TWDA passes Anasazi's charge on to the customer and adds .0004 cents per gallon to cover TWDA's costs.

There are a total of 36 customers receiving water through two separate distribution systems. Nine of the customers are connected to the Anasazi water delivery system and the remaining customers are connected to the Hydro water

1 delivery system. In addition, TWDA adds applicable sales taxes to each customer  
2 invoice.
