This is Appaloosa Water Co's 2nd attempt at a 100% rate increase in as many years. When does it end?

Appaloosa Water Co is not meeting current water arsenic standards. We are already paying additionally each month to meet this standard and we are not receiving what we are paying for.

Appaloosa Water Co's plans to expand his water company by adding a 500,000 gallon water tank should not be borne by his present customers which is what it appears to be.
