STATUS REPORT

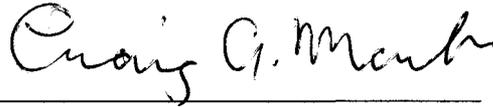

1 Far West Water & Sewer Company "Far West" hereby reports on the following
2 significant events:

3 1. As has been previously reported, Zenon Environmental Corporation ("Zenon") is
4 the vendor for the membrane-filtration systems for Far West's new Section 14 and Del Oro
5 wastewater treatment plant. All other construction at these plants is complete and the Zenon
6 membranes are on site. Therefore, the remaining tasks required to put these plants in service are
7 membrane installation, system integration, and final testing. On March 31, 2011, Far West
8 executed a promissory note with Zenon in the amount of \$2,242,447.61. The note secured
9 payment of Far West's accounts payables for Zenon products and services.

10 2. On April 12, 2011, Far West received an e-mail from Zenon stating that Zenon
11 representatives will be on site on April 19 and 20, 2011, at the Section 14 and Del Oro plants for
12 an initial site meeting with Far West's mechanical and electrical contractors. Membrane
13 installation, system integration, and final testing should begin shortly after this meeting.

14 A copy of the Zenon e-mail is attached.
