**Sent:** Pierce-Web  
**To:** Bradshaw Water Co Rates  
**Subject:**

Reason for this email: to complain about the higher water rates being imposed by the AZ Corp Commission Staff.

Our water rates are high enough...please reconsider.

Thank you.

ARIZONA CORPORATION COMMISSION  
DOCKET CONTROL

April 18, 2011

To Whom It May Concern:

In response to the Corporation Commission's recent push to have us pay more than the proposed rate, I submit the following: While we were "okay" with the new rate proposals of \$5.30, 6.71, and 8.00 per gallon, since we understand that the cost of doing business has increased, we also know that people (our household included), are not using as much water because of concerted ad campaigns and such to get us to reduce usage. However, while we are cutting back, it seems as though the Corporation Commission wants to penalize us and make up the difference by forcing Bradshaw Water Company to overcharge its customers. This is an attack against the consumer who has no option but to buy from the government controlled utility. Give me a break!

That strategy is wrong from all angles and we hereby go on record as customers who are loudly complaining about the gross overcharging being forced on us by a bunch of bureaucratic bums who seem to have nothing better to do than to make sure their coffers are lined.

Furthermore, most customers of Bradshaw Water Company are retired senior citizens on fixed incomes and cannot stand these kinds of gross price hikes.

Please reconsider your forced rate hike for Bradshaw water Company. We can't take it!!!!

Very Sincerely,

Concerned Citizens in the
