Re: Truxton Canyon Water Company (W-02168A-10-0247) Commission Staff Site Visit

Mr. Wene,

On May 24, 2011, the Arizona Corporation Commission ("Commission") approved the Hearing Division's Recommended Opinion and Order ("ROO") for Truxton Canyon Water Company ("Truxton" or "Company"), with the Amendment altering the timeline for item number ten of the Stipulation Agreement between Utilities Division Staff ("Staff") and Truxton. The Amendment requires Truxton to repair all leaks known as of December 31, 2010, within its water system, no later than May 30, 2011. If not repaired by said date, an Interim Manager will be appointed.

I am writing this letter as a follow up to our telephone conversation yesterday. There was some confusion as to whether Commission Staff could contact Truxton directly to set up a date and time to inspect the known leaks in the water system. After my conversation with you, it is my understanding that Commission Staff will be able to directly contact Truxton not only concerning this visit, but for any other Commission business in the future.

Del Smith and Alfonso Amezcua will be in Kingman, AZ on June 2, 2011, to inspect the known leaks in the water system. Their estimated time of arrival will be approximately 11:00 am, give or take 30 minutes. As with previous site visits, a representative of Truxton shall be available to tour the system with Staff and answer any questions Staff might have concerning the repairs of leaks. If the Company anticipates having their counsel present for the inspection, twenty-four hour notice to Staff is required, allowing them to arrange to have their counsel present. In the event that counsel for Truxton is present and notice is not given, Staff will not be able to perform the inspection. If Staff does not proceed with the inspection on June 2, 2011, they will not be able to report to the Commission confirming that all leaks known as of December 31, 2011, were repaired by May 30, 2011.
