John Zamar, President  
Ajo Improvement Company  
P.O. Drawer 9  
Ajo, Arizona 85321

Dear Sir:

Some of our members have attended meetings and followed the procedure of the Bureau of Land Management in the matter of Gila Bend to Ajo 230kV Transmission Line Project since 1996. We are in total agreement with the finding that there would be no significant environmental impact, since it follows the route of the existing 60kV line, most of it along Highway 85.

We support the construction of this project. The re-opening of the mine will be a great boost to our local economy and this is a necessary step to that end.

Yours very truly,

Roberta C. Hargis
