E-01345A-11-0250

IN THE MATTER OF ARIZONA PUBLIC
SERVICE COMPANY FOR APPROVAL
OF A TIME EXTENTION FOR THE
RESIDENTIAL CRITICAL PEAK PRICING
PROGRAM.

DOCKET NO. E-01345A-11-_____

I. INTRODUCTION

Arizona Public Service Company ("APS" or "Company") hereby requests that the Commission approve a two-year time extension for the Residential Critical Peak Pricing Program and the related Rate Schedule CPP-RES, which otherwise would be discontinued on January 1, 2012.

II. BACKGROUND FOR THE COMPANY'S REQUEST

In Decision No. 71448, the Commission approved Rate Schedule CPP-RES which is an optional critical peak pricing program for residential customers, effective January 1, 2010 through January 1, 2012. The program provides a price signal to incent customers to reduce their usage during APS's most critical hours, when load is either difficult of expensive to serve. As a reward, customers receive a kWh discount for their usage during the program months, June through September.

**RATE SCHEDULE CPP-RES
CRITICAL PEAK PRICING – RESIDENTIAL**

AVAILABILITY

This rate schedule is available in all territory served by the Company at all points where facilities of adequate capacity and the required phase and suitable voltage are adjacent to the sites served.

APPLICATION

The Rate Schedule CPP-RES is available to residential retail Standard Offer customers. This rate requires the customer to have an Advanced Metering Infrastructure meter, or AMI, in place at time of service. All provisions of the customer's otherwise applicable rate schedule will apply in addition to the charges in Schedule CPP-RES. Schedule CPP-RES is available ~~for a period of two years from the initial availability~~ through January 1, 2014.

A customer may not simultaneously participate in Schedule CPP-RES and another demand response rate or program, including Schedule ET-SP. A customer may participate in Schedule CPP-RES and a net metering rate schedule, subject to meter availability. However, any customer generation in excess of load during a CPP Event will be netted according to the customer's otherwise applicable rate schedule and will not be netted against usage during a subsequent CPP Event.

RATES

A. Critical Peak Price \$0.40000 per kWh
Critical Peak Price applies to kWh usage during a CPP Event.

B. Energy Discount
All residential customers \$(0.01891) per kWh

Energy Discount applies to Customer's total monthly kWh in the months of June through September.

CONDITIONS

- A. CPP Events: CPP Events may be invoked by the Company for the period 2 p.m. to 7 p.m., weekdays (Monday through Friday) during June through September. Holidays are excluded, which include Independence Day (July 4th) and Labor Day (first Monday in September). A CPP Event can be triggered by severe weather, high load, high wholesale prices, or a major generation or transmission outage, as determined by the Company.
- B. Number and Duration of CPP Events: The Company will invoke a minimum of 6 and a maximum of 18 CPP Events per calendar year, for 5 hours per event and 90 hours per year.
- C. CPP Event Notification/Communication: Customers shall be notified of a CPP Event in advance by 4:00 PM the day prior through a phone message, e-mail, or text message. Receipt of such notice is the responsibility of the participating customer.
- D. CPP Event Cancellation: Once a CPP event alert has been initiated, there are no conditions that would warrant the critical event to be cancelled.

**RATE SCHEDULE CPP-RES
