Re: Airespring, Inc. Tariff Revision – Arizona Tariff No. 2 (Local Exchange Services)
Docket No. T-04122A-11-0216

Dear Sir or Madam:

Enclosed for filing please find the original and thirteen (13) copies of corrected local tariff pages submitted on behalf of Airespring, Inc. in Docket No. T-04122A-11-0216. These pages are being submitted after various discussions with Ms. Lori Morrison. This revision introduces various new bundled services and replaces in its entirety the original filing made in this docket.

The following revised local tariff pages are included with this filing:

- 1st Rev. Pages 2 - 3 Updates Check Sheet;
- 1st Rev. Page 53 - 55 Adds Calling Features
- Original Page 68.1 Introduces Analog Integrated T-1 Service description;
- Original Page 68.2 Introduces Analog Integrated T-1 Service maximum rates;
- Original Page 68.3 Introduces Local Integrated T-1/PRI Service description;
- Original Page 68.4 Introduces Local Integrated T-1/PRI Service description and maximum rates;
- Original Page 68.5 Introduces Local Integrated T-1/PRI Service maximum rates;
- Original Page 68.6 Introduces Local SIP Trunking Service description;
- Original Page 68.7 Introduces Local SIP Trunking Service maximum rates;
- Original Page 120 Introduces Analog Integrated T-1 Services current rates;
- Original Page 121 Introduces Local Integrated T-1/PRI Service current rates;
- Original Page 122 Introduces Local SIP Trunk Service current rates.

Questions regarding this filing may be directed to my attention at (407) 740-3001 or via e-mail at tforte@tminc.com. Thank you for your assistance.

Sincerely,

Thomas M. Forte
Consultant to Airespring, Inc.

LOCAL EXCHANGE TELECOMMUNICATIONS SERVICES TARIFF

SECTION 4.0 - BASIC SERVICES AND RATES, (CONT'D.)

4.3 Network Exchange Bundled Service, (Cont'd.)**4.3.1 General, (Cont'd.)**

Network Exchange Bundled Service may include the calling features listed below:

These features are offered subject to availability of suitable facilities. Certain features may not be available with all classes of services.

Advanced Call Forwarding - This feature allows a customer to forward selected calls to another telephone number. A screening list of up to six numbers is created by the user via an interactive dialing sequence. Subsequently, calls are forwarded to the Call Forwarding telephone number only if the calling number can be obtained and is found to match a number on the screening list. If the user also subscribes to Selective Call Rejection and the same telephone number is entered on both screening lists, the Selective Call Rejection feature must be deactivated to allow the call to be forwarded. This feature will not work if the incoming call is from a telephone number in a multi-line Hunt Group unless the telephone number is the main number of the Hunt Group, or is the telephone number identified. (N)

Anonymous Call Rejection - ACR - (*77) - Allows customers to automatically reject all calls that have been marked anonymous, unavailable, or private by the calling party. When ACR is active, the called party receives no alerting (ringing) for a call that has been rejected. The call is routed to a denial announcement and subsequently terminated.

Automatic Recall - This feature enables the customer to automatically redial the last outgoing telephone number by dialing an activation code or pressing a feature button to request that the network place the call. When the recalled telephone number is busy, the Company's equipment will monitor the status of the line being redialed for a maximum of thirty minutes, in an attempt to establish the call. The customer will be signaled with a distinctive ring when the call can be completed. (N)

Call Forwarding - Fixed, Busy Line No Answer - This feature, when activated, redirects attempted terminating calls to another Customer-specified line. Call originating ability is not affected by Call Forwarding - Fixed, Busy Line No Answer. The calling party is billed for the call to the called number. If the forwarded leg of the call is chargeable, the Customer with the Call Forwarding - Fixed, Busy Line No Answer is billed for the forwarded leg of the call. Calls cannot be transferred to an International Direct Distance Dialing number.

Caller ID with Name - Allows a Customer to see a caller's name and number previewed on a display screen before the call is answered allowing a Customer to prioritize and or screen incoming calls. Caller ID records the name, number, date and time of each incoming call - including calls that aren't answered by the Customer. Caller ID service requires the use of specialized CPE not provided by the company. It is the responsibility of the Customer to provide the necessary CPE. In areas where Caller ID with Name is not available, Caller ID, which only displays the incoming telephone number, will be substituted.

LOCAL EXCHANGE TELECOMMUNICATIONS SERVICES TARIFF

SECTION 4.0 - BASIC SERVICES AND RATES, (CONT'D.)

4.3 Network Exchange Bundled Service, (Cont'd.)**4.3.1 General, (Cont'd.)**

Network Exchange Bundled Service may include the calling features listed below, (cont'd.):

Call Forwarding - Variable - a Customer activated feature that automatically transfers all incoming calls from the Customer's telephone number to another dialable telephone number until the Customer deactivates the feature. If forwarded to a long distance number the Subscriber will incur the long distance charges.

Call Forwarding with Remote Activation- This service allows Customers who subscribe to Call Forward to access, activate, or deactivate Call Forward from a remote location using a touchtone telephone. If forwarded to a long distance number the Subscriber will incur the long distance charges.

Call Trace - Allows a called party to initiate an automatic trace of the last call received. Call Trace is available on a usage basis only. After receiving the call which is to be traced, the Customer dials a code and the traced telephone number is automatically sent to the Company for action. The Customer originating the trace will not receive the traced telephone number. The results of the trace will be furnished only to legally constituted law enforcement agencies or authorities upon proper request by them.

Call Transfer Disconnect - This feature allows a customer to transfer a call to another telephone number and then hang-up, leaving the two remaining parties connected. The customer would then be free to accept another call. Customers are prohibited from using this feature to avoid toll.

(N)
|
(N)

Call Blocking- Call Blocking allows Customer to block calls from different telephone numbers. A screening list is created by Customer either by adding the last number associated with the line (incoming or outgoing) or by pre-selecting the telephone number to be blocked. Callers from such numbers hear an announcement that the calling party is not accepting calls and Customer's phone will not ring. The screening list may be edited and revised at Customer's discretion.

LOCAL EXCHANGE TELECOMMUNICATIONS SERVICES TARIFF

SECTION 4.0 - BASIC SERVICES AND RATES, (CONT'D.)

4.3 Network Exchange Bundled Service, (Cont'd.)

4.3.1 General, (Cont'd.)

Network Exchange Bundled Service may include the calling features listed below, (cont'd.):

Caller ID Per Line Blocking- Allows a Customer to prevent the transmission and display of their directory number and/or directory name information on outgoing calls. Line Blocking is in operation on a continuous basis and is applicable on all outgoing calls from Customer's blocked line. Line Blocking does not prevent transmission of the calling party information to emergency services that utilize automatic number identification for delivery of the calling information.

Find Me/Follow Me - Find Me/Follow Me is an enhanced Call Forwarding service whereby the called party programs his/her Call Forwarding feature to call various "Forward To" numbers. Upon receiving a call at the main called number the Find Me/Follow Me feature will call the programmed forward to numbers either sequentially or simultaneously, depending on the called parties programmed preference.

(N)
|
|
|
(N)

Message Waiting Indicator - This feature provides the user of a message service with either a visual and/or audible indication that a message is waiting.

(N)
(N)

VIP Alert - Allows a customer to program telephone numbers of selected callers, enabling the customer to distinguish certain incoming calls from all others by a distinctive ring tone.

Privacy Service- A feature which intercepts calls that are marked "private" and "out of area," or "unavailable" on Caller ID units. When unidentified callers dial the Subscribers number, they will receive an announcement informing them that the party they are calling does not accept calls from unidentified callers. They will receive a prompt to identify their name or state their intention and the service will then attempt to connect the call. Only if the caller responds will the call be connected.

The Subscriber's Caller ID will display the platform number and the name of the service. If the Subscriber chooses not to take the call the caller will hear a message which states the Subscriber is unavailable.

Privacy Service is offered subject to availability of suitable facilities. This service will be provisioned on a line-by-line basis and Customers with more than one line would need to have the service activated on each line if they want the ability to intercept unknown and blocked calls to each line.

LOCAL EXCHANGE TELECOMMUNICATIONS SERVICES TARIFF

SECTION 4.0 - BASIC SERVICES AND RATES, (CONT'D.)**4.4 Analog Integrated T-1 Service**

Analog Integrated T-1 Service combines local and long distance telephone service. This service also provides the user with local and IntraLATA calling packages, optional calling features and various non-regulated services.

This service includes 1,000 minutes of local calling usage per line. Local service calls over the 1,000 included minutes will be billed at \$0.01 per minute. Optional intraLATA and interLATA long distance service is also available through rates provided in the Company's Arizona Long Distance Tariff.

Local calls are billed in one (1) minute increments, long distance calls are billed an initial eighteen (18) seconds and six (6) seconds thereafter. All services require a minimum of a Two (2) Year Term Agreement. Cancellation of Term Agreement prior to the end of the term will result in early cancellation penalties being applied.

4.4.1 Terms and Conditions

- A. Integrated T-1 service is provided by dedicated T-1 circuits and includes up to 24 voice channels.
- B. Voice traffic takes priority over data traffic in mixed usage situations.
- C. All calls originated on these circuits must be completed and billed to the customer by the Company.
- D. Installation Fee includes installing the circuit and the connecting/testing of the Company's supplied hardware. Company provided equipment must be returned at the end of the term agreement. Additional penalties will be assessed for non-returned or damaged equipment.
