FIFTH STATUS REPORT

24 Pursuant to Decision No. 70558, Picacho Peak Water Company, Inc. ("Company")
25 is filing its biannual status report. In that decision, the Arizona Corporation Commission
26 ("Commission") ordered the Company to file each January and July, a report covering the
27 previous six months that contains all activities regarding the Arizona Department of
28

1 Environmental Quality ("ADEQ") Consent Order ("Consent Order"), as well as a report
2 regarding steps taken to recreate the mapping data for the distribution system.
3

4 Prior to July 26, 2010, as instructed by Arizona Department of Environmental
5 Quality staff, the Company's engineer informed ADEQ that the Company had installed
6 the approved water treatment devices and the engineer requested that ADEQ provide the
7 forms necessary for final approval of the treatment facilities as installed. On August 16,
8 2010, the Company's engineer documented with ADEQ that the treatment devices have
9 been installed in conformance with the approved application. Thus, as of July 9, 2010,
10 the treatment device installation was complete and the project conditions were met. *See*
11 Attachment 1. The Company has received no further communications from ADEQ.
12

13
14 The Company has conducted investigations regarding line locations and has
15 recently located a person who apparently mapped the line locations prior to the Company
16 becoming a registered water provider. Though no formal maps have been discovered, the
17 Company continues to investigate that source of information and will continue to seek
18 other resources and funds to map the water distribution system.
19
20

21 RESPECTFULLY SUBMITTED on June 15, 2011.

Re: Engineer's Notification of Completion of Installation

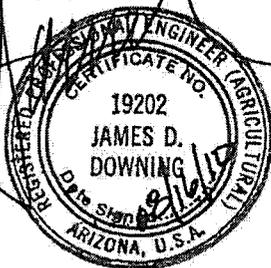

ADEQ File No. 20100072
County - Pinal County
Owner - Picacho Peak Water Company
Project Name - Nitrate Removal Project
Project Description - Installation of Point-of-Use Treatment

Gentlemen:

The purpose of this letter is to certify that the Picacho Peak Water Company ("Company") has installed the treatment devices described in the applications for approval to install filed on April 5, 2010 and April 15, 2010 and approved by the Arizona Department of Environmental Quality ("ADEQ") on April 16, 2010.

I am a professional engineer registered in the State of Arizona. I have personally inspected the treatment devices at meters 1, 4, and 10 and the remaining point-of-use treatment devices were installed under my supervision by Brutinel Plumbing Electrical and Water Treatment on July 9, 2010. The authorized treatment devices have been installed in conformance with the applications at all customer locations without deviation from the application. Thus, as of July 9, 2010, the treatment device installation has been complete and all conditions for this project have been fully satisfied.

Respectfully submitted,

EXPIRES 09/30/11

James D. Downing, P.E.
THE HARCUIVAR COMPANY
