Nature of Complaint:

The federal government says there has been no increase in the cost of living so seniors have had no pension increase for the last few years. Well, my electric bill has gone up, food has gone up, and even though I don't have gas in my neighborhood it will still affect me because our recreation centers use gas so my annual dues will increase. to pay for a gas rate increase. I guess senators had a cost of living increase because they certainly gave themselves a raise. Seniors cannot afford to have any more increases in living expenses many of them are cutting down on food just to pay for other things. I am very much against any more increases for any necessary utilities. Cut your expenses somewhere else, maybe your CEO and other management would like to take a cut in his pay
