**Subject:** Docket #SW-02361A-08-0609; Decommissioning Boulders WWTP; Odor Problems

Commissioners,

My husband and I live three doors from the Boulders WWTP, and we have complained for 9 years to the Black Mountain Sewer Corporation and for 5 years to the Arizona Corporation Commission about the obnoxious odor emitted by the above neighborhood sewer plant.

The odor continues, and there is no end in sight. It surrounded me when I cleaned the dust out of our fountain basin this morning. Also, it hit me with a blast at 11:30 pm one night last week when, after hearing an unfamiliar noise outside, I went out to be sure our garage doors were locked.

The odor comes and goes; but when it is present, it is sickening. And, it is present more often than not.

We're wondering how much longer we will be forced to live like this.
