## APPROVAL OF CONSTRUCTION

**Project Description:** Construct one (1) 65,000 gallon potable water storage tank, associated 2 inch, 4 inch, and 6 inch yard piping and appurtenances to serve the Thunderbird Meadows residential area. This tank replaces two existing deteriorating tanks.

**Location:** Wilhoit/Yavapai County

**Project Owner:** Wilhoit Water Company  
**Address:** 365 E. Coronado Rd., Ste 200, Phoenix, AZ 85004

The Arizona Department of Environmental Quality (ADEQ) hereby issues an Approval of Construction for the above-described facility based on the following provisions of Arizona Administrative Code (A.A.C.) R18-5-507 et seq.

On November 29, 2010, ADEQ issued a Certificate of Approval to Construct for the referenced project.

On May 29, 2011, Robert Upton, P.E., certified the following:

- A final construction inspection was conducted on May 19, 2011;
- The referenced project was constructed according to the as-built plans and specifications and ADEQ's Certificate of Approval to Construct;
- Water system pressure and leakage tests were conducted on April 12, 2011, and the results were within the allowable leakage rates;
- The waterlines were disinfected according to an ADEQ-approved method; and
- The applicant has the right to appeal this AOC Permit. Appeal information is on reverse side of this Permit.

Microbiological samples were collected on April 14 and May 13, 2011, and analyzed on April 15 and May 14, 2011, by Bradshaw Mountain Environmental Laboratory, ADHS License No. AZ0029. The sample results were negative for total coliform.

This Approval of Construction authorizes the owner to begin operating the above-described facilities as represented in the approved plan on file with the ADEQ. Be advised that A.A.C. R18-5-124 requires the owner of a public water system to maintain and operate all water production, treatment and distribution facilities in accordance with ADEQ Safe Drinking Water Rules.
