Laura Furrey

From: Laura Furrey
Sent: Tuesday, July 12, 2011 9:12 AM
To: Nancy LaPlaca
Cc: Steven Olea; Terri Ford
Subject: FW: Air Emissions from MSW Combustion Facilities | Energy Recovery from Waste | Municipal Solid Waste | US EPA

Hi Nancy,

Frank Schinzel from MDEQ thought Commissioner Newman would find the EPA link below helpful regarding Waste-to-Energy facilities so I wanted to pass it along before today's Open Meeting.

Thanks!
Laura

Thx - did you see latest EIA updated 2010 AEO data on MSW v solar? MSW \$8200/kW v large solar PV \$4700/kW. MSW up 210% in ONE year; solar down 25%. Sigh. I have link if you can't find.

Subject: RE: EIA Annual Energy Outlook updated for 2010

Apparently the guy at EIA was not correct in telling me that the information for "MSW - Landfill Gas" was for a landfill gas to energy system.

In the technical discussion the description is for a WTE facility (combustion of MSW), the title in Table I is "MSW" while the titled in table II is labeled "MSW - Landfill Gas." The mislabeling and the 210% increase in price makes me think something is off.

I'll call the EIA guy tomorrow again to chat about it.

Subject: FW: EIA Annual Energy Outlook updated for 2010 - possible to discuss this at hearing this afternoon?

Steve: can Laura comment on this please?

Does Paul need to lay a foundation to get this into evidence; or can Laura just discuss? Laura was going to talk to EIA folks about confusing terms re: MSW and Landfill gas.

Many thanks.

Nancy

Terri Ford and Steve Olea were sent all emails regarding MEC WTE issues so that I knew how (and if) to properly respond. I don't believe I have signed an NDA regarding MEC's WTE Application.

Laura
