Re: Docket No. E01750A-09-0149

I am sure you are aware of the ongoing dispute. I have done everything I know how to do to resolve this dispute, so a new attorney will be assigned to this case. From my understanding a number of ACC officials will be subpoenaed to testify in this case. One of the key questions will be, "Has the ACC sent a representative to Mr. Chantel's place of residence to examine his concerns of unsafe lines and personally talk to him about his concerns?" This question will be the focus on internet blogs, newspapers and in the minds of the general public.

My question to you is, do you think that it is too late in this case to have one of your representatives set up a meeting to view what I think is unsafe line conductions? If you think it is appropriate to have one of your representatives talk to me on site, you can set up a time by calling this number 928-757-9755.

Sincerely,

Roger Chantel
