DOCKETED BY

To Whom It May Concern:

Subject: John Dougherty's Intervener Status Regarding Montezuma Rimrock Water Company (MRWC)

It was with great dismay when my husband and I learned that John Dougherty is requesting to have input in our local water company business in regards to the ACC. For about 19 months our community has endured John Dougherty's and his cohort, Ivo Buddeke's, harassment and bullying of Patsy Olsen regarding her ownership of MRWC. Our community wants the arsenic treatment added to our water supply and John Dougherty stopped the funding from WIFA last year when he went to that agency and complained about MRWC. Out of 112 customers approached, 110 signed and supported MRWC in 2010. John Dougherty and Ivo Buddeke both publicly announced in 2010 that their goal is to shut down MRWC and take it away from Patricia Olsen. There have been numerous situations with regard to John Dougherty's actions and intimidations. Dougherty was served with an Injunction of Harassment and is now under a yearlong order to stay away from Ms. Olsen. We feel his request to be an Intervener is a ploy to continue to harass and bully Patricia Olsen and her company, MRWC. Because he has no education regarding water issues on a community level he appears to make illogical and irrational assumptions regarding our water supply. Dougherty professes to be a resident of Rimrock however, that is untrue. My husband, Don, and I live two houses down diagonally from his rental and we can assure you he is not a resident. We moved here in November 2005 and had met his renters.

John Dougherty appears, through our interactions with him, to be volatile, angry and doesn't like to lose. Our community has about 250 homes and had always been a friendly, quiet and serene place to live; that is until he started his campaign in 2010 against Patricia Olsen's water company.
