RE: Arizona Public Service Company Rate Schedules GPS-1, GPS-2 and GPS-3
Docket Nos. E-01345A-05-0816, E-01345A-05-0826, & E-01345A-05-0827

Pursuant to Decision No. 69663, dated June 28, 2007, Arizona Public Service Company ("APS") was ordered to develop a single tariff with a single set of rates, to be reset annually, based on the cost of renewable resources procured for this purpose.

The green power rates, which are based on the cost of green power net of the cost of conventional generation, are typically adjusted annually to reflect the most current information. However, on September 24, 2010, APS applied to the Commission to revise the rates and requested that the proposed rates, which were based on the average projected costs over three years, be effective through December 2013. This Application is pending before the Commission (Docket No. E-0135A-10-0394).

Therefore, in light of this pending Application, APS does not believe that it is necessary or appropriate to apply for revised green power rates in 2011.

If you have any questions regarding this information, please contact David Rumolo at (602)250-3933.

Sincerely,

Jeffrey W. Johnson
