**Subject:** smart meters

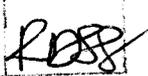

Mr. Pierce,

There are many of us in Yavapai County who are plenty upset over this smart meter issue. The more we learn, the worse things are sounding. We know little about this, and feel we are being forced into this without all of the facts, so typical of the government. We hear the cc is working on an opt out. Why wasn't the opt out done first? Oh, I know why, the cc and aps thought they could do this without the public questioning it? The "public" is plenty sick and tired of everything being shoved down our throats at every turn, and we won't let this one rest either.
