Commissioner
Arizona Corporation Commission
Commissioners Wing
1200 West Washington
Phoenix, AZ 85007-2996

Dear Commissioner Kennedy
SW-01303A-09-0343

I am writing in support of deconsolidation of the Anthem/Agua Fria Wastewater District operated by Arizona American Water Company (AAWC). I feel strongly that Anthem customers have an obligation to pay for the infrastructure that we use but that Anthem customers should not be required to support facilities which we do not or will not use.

I support the phased in rate adjustment to mitigate the impact upon affected customers.

I urge you and your fellow Commissioners to right this wrong, and deconsolidate the Anthem/Agua Fria wastewater district.

Respectfully,

Stephen Nuneman

Commissioner
Arizona Corporation Commission
Commissioners Wing
1200 West Washington
Phoenix, AZ 85007-2996

Dear Commissioners Newman, Burns, Pierce, Stump and Kennedy:
SW-01303A-09-0343

I am writing in support of deconsolidation of the Anthem/Agua Fria Wastewater District operated by Arizona American Water Company (AAWC). I strongly believe that Anthem customers should pay for the treatment plants, facilities, and infrastructure that serve our community.

As Anthem residents we pay for a state of the art wastewater treatment facility; why should we also be paying for the costs of facilities that we do not use and will never use? Anthem's system has no physical connection to the Agua Fria system – we should not pay for what is not “used and useful” by Anthem residents!”

I understand that deconsolidation will result in increased rates for Agua Fria customers. I also understand that the Anthem Community Council has proposed a phase-in of the rates, similar to what we experienced in the recent water rate case, as a means of softening the impact. I support this phase-in as a means of mitigating the effect of the rate increase through a 3-year phase-in of the rates.

The bottom line is that deconsolidation of the Anthem/Agua Fria wastewater district is the right thing to do under the current model for private water/wastewater systems in Arizona. It returns our service to what is “just and reasonable.” To not deconsolidate is to go against the principles that the Commission has advocated and would result in different and unfair treatment for Anthem ratepayers.

Deconsolidation is consistent with the stand alone, cost of service systems owned and operated by AAWC throughout the state, and creates an even playing field. To delay until consolidation is considered is unfair; statewide consolidation has not occurred to date, and may or may not occur at an unknown time in the future. The time to correct this disparity is NOW by approving deconsolidation of the Anthem/Agua Fria wastewater district as put forth by the AAWC in their April 1 filing.

I urge you and your fellow Commissioners to right this wrong, and deconsolidate the Anthem/Agua Fria wastewater district.

Respectfully,

Jill M Tetsell

Commissioner Arizona Corporation Commission Commissioners Wing 1200 West Washington Phoenix, AZ 85007-2996 Dear Commissioner(s) _Newman, Burns, Pierce, Stump and Kennedy:
SW-01303A-09-0343

I am writing in support of deconsolidation of the Anthem/Agua Fria Wastewater District operated by Arizona American Water Company (AAWC). I strongly believe that Anthem customers should pay for the treatment plants, facilities, and infrastructure that serve our community. As Anthem residents we pay for a state of the art wastewater treatment facility and as such should not be required to pay for the costs of facilities that we do not use and will never use. Anthem's system has no physical connection to the Agua Fria system thus making no sense for us to burden additional charges to our already high bills!

I understand that deconsolidation will result in increased rates for Agua Fria customers. I also understand that the Anthem Community Council has proposed a phase-in of the rates, similar to what we experienced in the recent water rate case, as a means of softening the impact. I support this phase-in as a means of mitigating the effect of the rate increase through a 3-year phase-in of the rates.

The bottom line is that deconsolidation of the Anthem/Agua Fria wastewater district is the right thing to do under the current model for private water/wastewater systems in Arizona. It returns our service to what is "just and reasonable." To not deconsolidate is to go against the principles that the Commission has advocated and would result in different and unfair treatment for Anthem ratepayers.

September 2, 2011

Dear Commissioner Kennedy,

I am writing in support of deconsolidation of the Anthem/Agua Fria Wastewater District operated by Arizona American Water Company (AAWC). I strongly believe that Anthem customers should pay for the treatment plants, facilities, and infrastructure that serve our community, but it makes no sense that we should also be paying for facilities we do not, have never, and never will use. Anthem's system has no physical connection to the Agua Fria system so it is simply unfair that we should be paying for it.

I do understand that deconsolidation will result in increased rates for Agua Fria customers. I also understand that the Anthem Community Council has proposed a phase-in of the rates as a means of softening the impact on Agua Fria customers; this approach seems a fair one for those customers.

The bottom line is that deconsolidation of the Anthem/Agua Fria wastewater district is the right thing to do under the current model for private water/wastewater systems in Arizona. If it is not done, it continues to penalize Anthem customers by charging for services they do not use, and that is totally contrary to the principles that the Commission has advocated and would result in continuing unfair treatment for Anthem ratepayers.

Deconsolidation is consistent with the stand- alone cost of service system model implemented by AAWC throughout the state, and creates an even playing field. To delay deconsolidation until, or even if, a different model is implemented is totally unfair. The time to correct this disparity is now.

I urge you and your fellow Commissioners to right this wrong, and deconsolidate the Anthem/Agua Fria wastewater district.

Respectfully,

Peni Long

Commissioners of the
Arizona Corporation Commission:

Ladies and Gentlemen:
Re: SW-01303A-09-0343

I'm writing in support of deconsolidation of the Anthem/Agua Fria Wastewater District operated by AZ American Water Company.

As Anthem residents, my neighbors and I pay for a state of the art wastewater treatment plant, facilities and infrastructure. This system has no physical connection to the Agua Fria system. Why, then, should we also be paying for the costs of the Agua Fria facilities which Anthem residents do not now nor ever will use. It is my understanding that a common test for rate establishment/setting is the concept of "used and useful." As Anthem is not connected to, nor do we benefit from, the Agua Fria facility, there is no used and useful for our residents. Therefore any charge to Anthem residents for this facility is clearly both unfair and unjust.

I also support the Anthem Community Council proposal to phase-in over three years the Agua Fria increased rates resulting from the deconsolidation.

Deconsolidation is the right thing to do. It returns our service to just and reasonable. The time to correct this disparity now, not some yet to be determined time in the future.

Commissioners, it is within your authority to correct this injustice which I implore you to do.

Douglas Perez

Commissioner Kennedy,

In this case before the Commission, I support deconsolidation if by the expiration of a reasonable phase-in period such results in a significant rate reduction within the district serving the residential and business sectors of Anthem Arizona, while providing comparative advantages for those parties benefiting from transmission infrastructure related to the associated water wheeling agreement.

Thank you,

Jason Miska
Anthem Homeowner
