DOCKETED BY

Dear AZCC,

Please, please, please do not give in to any of these requests from APS. As I understand it one of the items they are asking for is uncoupling because the demand for energy is actually on the decrease. They are afraid they won't be able to continue with the HUGE profits they have become so comfortable with. The answer for them is to charge those of us that have done everything we can to save energy and make our planet a better place. This is ridiculous and I beg you please do not let them get away with this. Most of us are hanging by a thread these days and can not afford any more increases of any type. Especially not ones that are not for the good of the consumer. Please restore my faith in politicians and do not give in to "Corporate America". These people do not deserve any of these requests.

Sincerely,

Donald and Jill Walters
