GARY PIERCE, CHAIRMAN
PAUL NEWMAN, COMMISSIONER
BRENDA BURNS, COMMISSIONER
BOB STUMP, COMMISSIONER
SANDRA D. KENNEDY, COMMISSIONER
ARIZONA CORPORATION COMMISSION

Mr. Pierce and Commissioners:

I read the letter which came to me announcing yet another financial burden for me to bear, and I'm fed up.

Enough! Please, please, no more cost increases. There are lots of us out here in the world who are under severe hardship from lack of work, high gasoline prices, and a depressed economy. I have been out of work for 18 months, even though I am capable, well groomed and well spoken. There are many people in the same situation. Frankly, we have cut and cut our budgets and our cost of living in every area we can. APS will need to do the same. There are some worthwhile purchases and improvements that I need to make to my house to allow it to function better and more economically, but they must wait for a more opportune time. Even though this decoupling mechanism might be a worthwhile investment for APS, they need to postpone it to a time when people are not suffering as they are now. My energy bill is only one of the many things I need to pay each month. I've turned up the thermostat, stopped eating certain foods, stopped driving as much, cut out almost all entertainment -- I'm pulling my hair out here!

No more increases. This economy is killing us. Please do not approve this rate increase.

Sincerely,

Sally Jo Swaine

Subject: Decoupling

Dear Sir:

I have both solar hot water and solar electrical generation... with considerable investment on my part. My expectation when it was installed was to have LOWER rates ... NOT... give the energy companies an excuse to be inefficient and INCREASE rates.

Their business environments are changing with increased use of solar... they need to flex with the times and figure out strategies for profitability that DO NOT include rate increases for those of us who are careful plus are generating power besides.

Please repeal both decoupling bills APS-E-0134A-11-0224 and SWG G-01151A-100458

Thank you in advance

Ella Schreiber
