Nature of Complaint:

*****MR GRISE FILED THIS NOTATING THE RATE CASE, 11-0224, HOWEVER, HIS ENTIRE OPINION IS ABOUT SMART METERING. HENCE, AM DOCKETING THIS LETTER IN 11-0328*****

We object to any application of any APS rate monies (including this APS rate application) to the APS "Smart Meter" program. We have concerns regarding health (meter transmitter radiation), privacy (data use and dissemination) and claims of Smart Meters improving power generation efficiency (Meters only record history. No technology can predict future individual human behavior perfectly. Current meters provide sufficient data for power load prediction. We have experience in public utilities this type of prediction and can affirm that the existing data system is sufficient and not in need of these additional harmful and intrusive devices. In addition, collection of this type of data without full and detailed disclosure of the method of collection and detailed and public explanation of its use is a violation of the Constitution.)

ADDITIONAL NOTE: IN EARLY SEPTEMBER MR GRISE FILED OPINION ON APS RATE CASE 11-0224
End of Complaint

Utilities' Response:

Investigator's Comments and Disposition:

9/15--opinion entered into database and will be docketed in 11-0328
