Subject: Semstream rate increase (on docket 1-3 thru 1-6-2012)

ORIGINAL

0000130009

Dear Commissioners:

I am a retiree living in Payson on a fixed income. I cannot and should-not have to shoulder a 26% increase in propane rates.

In the winter, my wife and I already wear jackets and sock hats in our home to stay warm. Our thermostat is set at 66 degrees. Last year we had additional insulation added to the attic.

As you know, Social Security has not given a cola increase in the last two years. We feel the Utility Companies should show some restraint during these difficult economic times. I often see propane per gallon prices cheaper than we are now charged connected to their system.

Thank you for your consideration. I can understand a small rate increase, but, I urge you to veto the 26% requested.

George & Joyce Sanderson
