Subject: NO Rate Increase for APS

Importance: High

Mr. Gary Pierce: Please, please, please, do not allow any rate increase to APS!

The utility has admitted publicly that it wants this increase because so many of us customers are decreasing power usage, and APS wants to maintain/increase its profit margins! What?! As it is, APS doubles our rates May-November!

We have not had a COLA increase in our Social Security for 3 years already, and will not get one for the 4th year in a row. In addition, our pension has been decreased 4 times in the past 3 years! WE can't afford this increase, and APS doesn't need it.

Subject: APS increase

Dear Chairman Pierce, First I want to thank you for being willing to serve and represent "we the people"
Secondly, I just received the information that APS is requesting a 7% increase for this next year. I would like to voice my opposition to this request for the following reasons,
APS devised a plan to switch out all meters to the Smart Meters, (spending money on this development without getting input from the public) with the thought they could lay off the meter readers which would increase the profit margin. Then on top of that they also are requesting this 7% increase, again to increase their profit. When any company makes a bad business decision, then expects the consumer to pay for that mistake, that business won't be in business very long. I would ask that you deny their request and inform them they need to make better decisions with public input.
Thank you for your time
Todd League

It is my understanding that APS is asking for a raise, what I do not understand is the fact that you failed to inform the public when this hearing at the Corporation Commission will be. I would appreciate it if you give me the date and time for the hearing to raise APS bill, I cannot understand why the Corporation Commission is holding secret meetings about this raise hike, what is amazing is that as people lose their jobs and are broke they have the audacity to ask for a raise. I know will not be voting for anyone that condones rate increases.
